Table of Contents

Chapter 1 Letter to Shareholders.....	5
Chapter 2 Corporation Profile.....	10
I. Date of Incorporation	
II. Corporation History	
Chapter 3 Corporate Governance Report	15
I. Organization	
II. Information about directors, general manager, vice general manager, associate manager, and head of departments and branches	
III. Remuneration paid during the most recent fiscal year to directors, general manager and vice general manager	
IV. Implementation of corporate governance	
V. Information on CPA professional fees	
VI. Information on replacement of CPAs	
VII. Information about Corporation chairman, general manager, or any managerial officer in charge of finance or accounting matters in the most recent fiscal year holding a position at the Corporation's CPA accounting firm or at an affiliated enterprise of such accounting firm	
VIII. Any transfer of equity interests and/or pledge of or change in equity interests (during the most recent fiscal year or during the current fiscal year up to the date of publication of the annual report) by a director, managerial officer, or shareholder with a stake of more than 10 percent	
IX. Relationship information, if any one, among the Corporation's ten largest shareholders, is a related party or a relative within the second degree of kinship of another	
X. Total number of shares and total equity stake held in any single enterprise by the Corporation, its directors, managerial officers, and any companies controlled either directly or indirectly by the Corporation	
Chapter 4 Capital Overview	72
I. Capital and shares	
II. Issuance of corporate bonds	
III. Issuance of preferred shares	
IV. Status of participation in issuance of Global Depository Receipts (GDRs)	
V. Status of employee stock option	
VI. Status of restricted employee share subscription warrant	
VII. Issuance of new shares in connection with mergers or acquisitions or with acquisitions of shares of other companies	
VIII. Implementation status of capital utilization plan	

Chapter 5 Operational Highlights.....	79
I. Business activities	
II. Analysis of the market as well as production and marketing situation	
III. Employees	
IV. Environmental protection expenditure	
V. Labor relations	
VI. Cyber security management	
VII. Important Contracts	
Chapter 6 Financial Information.....	98
I. Condensed balance sheets and statements of comprehensive income for the past five fiscal years	
II. Financial analyses for the past five fiscal years	
III. Supervisors' or Audit Committee's Review Report for the most recent fiscal year's financial statement	
IV. Financial statements for the most recent fiscal year	
V. Parent company-only financial statement for the most recent fiscal year, certified by the CPA	
VI. In the most recent fiscal year and up to the date of publication of the annual report, any financial difficulties experienced by the Corporation or its affiliates and how said difficulties will affect the Corporation's financial situation	
Chapter 7 Review and Analysis of the Corporation's Financial Position and Financial Performance, and Listing of Risks.	235
I. Financial position	
II. Financial performance	
III. Cash flow	
IV. Major capital expenditure for the most recent year and its effect on financial position and operation of the Corporation	
V. Corporation reinvestment policy for the most recent fiscal year, main reasons for profits/losses generated thereby, plan for improving reinvestment profitability, and investment plans for coming year	
VI. Analysis and evaluation of risk factors	
VII. Other important matters	
Chapter 8 Special Disclosure	240
I. Information on the Corporation affiliates	
II. Private placement of securities during the most recent fiscal year and up to the date of publication of the annual report	
III. Holding or disposal of the Corporation's stock by subsidiaries during the most recent year and up until the date of publication of the annual report	
IV. Other supplementary disclosure	

Chapter 9 Situations Listed in Subparagraph 2, Paragraph 3, Article 36 of the Securities and Exchange Act Which Might Materially Affect Shareholders' Equity or the Price of the Corporation's Securities Occurring During the Most Recent Fiscal Year and Up to the Date of Publication of the Annual Report242

Chapter 1 Letter to Shareholders and Business Report

2022 Business Report, 2023 Business Plan and Outlook

Since its establishment in 1967, New Asia has been operating mainly in the field of engineering and construction with the development of public works as the primary goal. However, since the epidemic in 2020, the global economy has been affected, and Taiwan's industry was also inevitably impacted. The pandemic and unstable political situation disrupting global logistics had led to labor shortage, material shortage and spike in raw material costs. These force majeure events create a double whammy for the already low-margin public works, impelling New Asia venture beyond original realms and jump onto the bandwagon of exploring new markets. For example, energy storage and supply facilities, urban renewal and construction projects, semiconductor related industry production bases and their cutting-edge scientific research plants.

We firmly believe that by carefully observing market trends and daring to try new opportunities, we can bring new development to the Corporation and create the greatest value to the Corporation. Therefore, with an eye toward achieving the Corporation's long-term development goals, we will ceaselessly monitor market trends and seek for business opportunities that are different from the past.

I. Operational status in 2022

(I) Projects which were completed in 2022:

1. Turnkey project for the construction of standard factory building and joint office building in Kaohsiung Science Park: completed on January 29, 2022 (completion amount of about NT\$2.189 billion).
2. Agency for the reconstruction of the Nanfang'ao Bridge and the supporting pipeline project: completed on December 31, 2022 (completion amount of about NT\$1.084 billion).
3. The total amount of the above two completed projects is NT\$3.273 billion.

(II) The revenue for 2022: NT\$6.856 billion.

(III) New business clinched in 2022:

1. National Taiwan Normal University - new construction project (turnkey project) for Mandarin Training Centre International House: won the bid on April 12, 2022 (secured an amount of about NT\$670 million (tax inclusive)).

2. Directorate General of Highways, Ministry of Transportation and Communications - new construction project for East-West Expressway Provincial Highway 76 (16K+607~20K+890) Xihu - Wa Yao Section: won the bid on August 25, 2022 (secured an amount of about NT\$6.3 billion (including tax)).
 3. National Housing and Urban Regeneration Center - new turnkey construction project for social housing at Ren'ai Road-Wenhua Road intersection at New Taipei City Linkou District: won the bid on August 25, 2022 (secured an amount of about NT\$3.6 billion (tax inclusive)).
 4. CPC Corporation, Taiwan (with British firm Bechtel Limited as main investor) - construction turnkey project of LNG storage tanks for the Taichung Phase III: won the bid on October 14, 2022 (secured an amount of about NT\$1.13 billion (tax inclusive)).
- (IV) Total new business value in 2022: NT\$11.7 billion (tax inclusive).
- (V) Award winning projects in 2022:
1. National Freeway 4 Taichung Circular Line Fengyuan-Tanzi Section Tender C715 Project: conferred First in Outstanding Roadworks at 23rd Golden Road Award by the Ministry of Transportation and Communications (MOTC).
 2. East-West Expressway Provincial Highway 76 (3K+700~11K+585) Wenjin - Xihu Section new construction project: conferred Excellence Award at Golden Engineering Safety Award by Ministry of Labor of the Executive Yuan on October 2022.

II. Plans and outlook for 2023

(I) Public works and energy supply and storage facilities:

The impact of the pandemic, which has ravaged the world for over three years, has gradually eased, and countries around the world have progressively opened their borders, leading to a full recovery of economies. As the economy recovers from pandemic doldrums, industries related to manufacturing and transportation have also regained momentum. These industries rely on an important commodity, energy. "Power outage" was ranked sixth as most searched term for Taiwan region on a famous search engine. It exemplified the lack of electricity in Taiwan has become a national concern. Hence driving the construction of energy supply and storage facilities is imperative. The Corporation is involved in the construction of LNG storage tanks for Taiwan CPC's Phase III project, and is also actively

striving for closer collaborative ties with Taiwan CPC in the future to assist in the construction of related energy facilities.

(II) Semiconductor technology plants:

Taiwan's semiconductor industry generated an output value of more than NT\$5 trillion in 2022, contributing 13% to Taiwan's overall GDP, worthy of Taiwan's reputation as a silicon island. Thanks to its complete infrastructure and nearly one-stop production chain, Taiwan's booming semiconductor industry has attracted many international semiconductor technology plants to set up factories in Taiwan. We are actively striving for a number of new construction projects for technology plants. If successful, it will definitely help accelerate the Corporation's transformation for high-tech business and open up new business fields.

(III) Urban renewal development

Many important cities in Taiwan are dotted with old buildings which are more than 30 years old. Most of these old buildings are located in the prime locations of various urban areas. The building materials of these buildings are old and have long deteriorated, and the seismic resistance coefficient of such old structural designs pose significant issues. After the painful lessons of the 921 Earthquake, in order to accelerate the reconstruction of these dangerous old buildings, improve residential safety, and enhance the appearance and environment of cities, the government has promulgated the Statute for Expediting Reconstruction of Urban Unsafe and Old Buildings. Building bulk rewards and tax exemptions were being dangled to incentivize and motivate rebuilding of these buildings. In the past six months, the Corporation has conducted several landlord briefing sessions and dozens of promotion focus group meetings, and successfully secured the implementation of a project located in the prime zone of Taipei City. The success of this project will definitely spur residents in the vicinity to take the initiative to seek services from the Corporation and also enhance the reputation of New Asia Construction in the space of private construction projects. This year, the Development Department endeavors to venture into the development of commercial real estate market, which will inevitably break fresh grounds in establishing a foothold in the market.

(IV) Private project contracting:

With an eye toward transitioning from public works to private projects, the Development Department, established in July last year,

actively sought out excellent owners among the public. By providing holistic engineering solutions and aligning with owners' advance planning and team integration, New Asia's brand is complemented with a service attitude that has gained the trust and recognition of the owners. After several months of efforts, the Corporation has signed cooperation agreements with several of renowned builders and technology companies. The construction and turnkey projects of private projects are expected to commence officially this year.

As we manage each site with high self-imposed requirements and standards under strict public works regulations, we are able to offer valuable service advice when engaging with private owners. We firmly believe that the manufacturing and turnkey construction of private projects require more detailed planning and management to ensure that every detail can be completed smoothly. With a view to presenting the highest standards of building products, moving forward, we will meet the needs of private owners with better services and ensure that every project is delivered on time.

Introduction of new information-based management technologies to reinforce the Corporation's management efficiency and training:

The Project Information Management Office mentioned in the outlook for 2022 has introduced new information technologies, and this year we will continue to deepen the integration of new information technologies to enable the data required for project management to become cloud based, so that project personnel can have real-time access to the situations of the project sites.

Through the introduction of new management technologies, the progress, income and expenditure, and issues of all construction sites can be displayed and reflected in real time on the Engineering Dashboard. This helps the Corporation's senior management to monitor the management of each construction site in real time and quickly provide appropriate recommendations for the sites to optimize management performance. Another important reason for digitizing information is to streamline internal administrative processes and boost administrative efficiency, which is a vital step for the Corporation to fulfill our ESG vision. Over and above reducing paper waste, the digitalizing of administrative processes within the organization can also save the written process and time for filling out, transferring data, verifying, approving and filing by personnel. Performing various administrative documentation tasks on the Corporation's online platform can significantly improve

efficiency and reduce the waste of time and energy due to engineering personnel handling complex administrative tasks. This enables the Corporation's professionals to have the bandwidth to focus on developing new business and improving the quality of construction. To boot, personnel management and the selection and nurturing of talents can also be achieved by leveraging management technologies. Establishing a hierarchical talent nurturing system is necessary such that the Corporation's growth can be assured through the ceaseless cultivation of talents with potential and expansion of business capabilities. We will systematize the employee training system, let new employees undergo necessary training prior to assigning them to projects, and plan the nurturing of various talents to become construction supervisors and experts with professional knowledge and experience.

Chairman of the
board of directors: TZOU HONG-
KEE

General
manager: Lai Tiao-Tsan

Accounting
manager: CHEN PO CHUNG

Chapter 2 Corporation Profile

I. Date of Incorporation: December 4, 1967. II.

Corporation History

- 1967: Incorporated on December 4, with a capital of NT\$12 million. Chairman was Li Cheng-Fang and general manager was Tzou Tzu-Kuen, the Corporation began operations on the fourth floor of Chia Hsin Building, Zhongshan North Road, with an office area of 72 square meters.
- 1971: Ten major construction projects started, collaborated with Japanese Asunaro Aoki Construction Co. Ltd. on 19 projects including the fifth bid of North-South bound highway from Sanchong to Yangmei. Unfortunately, the chairman, Li Cheng-Fang passed away in a plane crash. Ji-Liang Hu succeeded as chairman and Tzou Tzu-Kuen was the general manager.
- 1973: Capital was increased to NT\$50 million.
- 1975: Capital was increased to NT\$67.5 million. The Corporation moved its business to Hsieh Chih Building on Zhongshan North Road.
- 1976: Capital was increased to NT\$90 million.
- 1977: The tenth anniversary of incorporation, the Corporation moved into the office it bought in the Hua Hsin Building on Zhongxiao East Road. Capital was increased to NT\$100 million.
- 1978: Capital was increased to NT\$125 million.
- 1979: Capital was increased to NT\$150 million.
- 1980: Capital was increased to NT\$160 million.
- 1981: Capital was increased to NT\$180 million.
- 1982: Capital was increased to NT\$200 million.
- 1987: Reduced capital by NT\$2 million and withdrew from public offering.
- 1970: Capital was increased to NT\$600 million.
- 1991: On July 1, chairman, Hu Wei-Liang retired and became honorary director and permanent member of the board of directors. General manager, Tzou Tzu-Kuen was elected as the ninth chairman of the board, and vice general manager, Chuang Ting-Chuang was appointed as general manager. In August, the Securities and Exchange Commission approved the capital increase to NT\$800 million.
- 1992: Applied for listing on May 30, and was approved by the Securities and Exchange Commission on December 24. On September 1, the capital increase to NT\$1.024 billion was approved.
- 1993: Officially become a class I listed company on May 25, 1993. The registered capital is NT\$1,259,520,000.
- 1994: On January 10 of this year, the Corporation was awarded the National Top Five Excellent Construction Industry Certificate by the Ministry of the Interior, and on April 7, it was awarded the Top Five Excellent Constructor Certificate by the Department of Rapid Transit Systems, Taipei City Government. In July of this year, the Corporation was approved by the Securities and Futures Commission, Ministry of Finance to capitalize its undistributed earnings and capital surplus to a total capital of NT\$1,498,828,800.
- 1995: In June of this year, the Corporation was approved by the Securities and Futures Commission, Ministry of Finance to capitalize its undistributed earnings and capital surplus to a total capital of NT\$1,654,707,000. Unfortunately, on November 22 of the same year, general manager Chuang Ting-Chuang passed away due to illness.

On November 23, the provisional board of directors resolved to discharge him as executive director and general manager. Chairman Tzou Tzu-Kuen was temporarily appointed as acting general manager. Bought 64% of the shares of Hsin-Hsing Power Development Co., Ltd. and indirectly Owned 63.36% the shares of "Nantong Thermoelectric Co., Ltd." It is estimated that the fund will be put into use after two years.

- 1996: In June of this year, the Corporation was approved by the Securities and Futures Commission, Ministry of Finance to capitalize its undistributed earnings and capital surplus of NT\$82,735,350, and cash capital increase of NT\$730,000,000; a total capital increase of NT\$812,735,350. After the capital increase, the total capital came to NT\$2,467,442,350. The indirect investment in "Nantong Thermoelectric Co., Ltd." was approved by the Investment Commission, MOEA. The capital of Singapore Hsin-Hsing Power Development Co., Ltd. was US\$7 million, and the Corporation brought 64%, a total of NT\$4,480,000 were paid for the shares. The general manager of this Corporation, Mr. Tzou, was elected by the board of the Hsin-Hsing Power Development Co., Ltd. as the chairman for both Hsin-Hsing Power Development Co., Ltd. and Nantong Thermoelectric Co., Ltd.
- 1997: In July of this year, the Corporation was approved by the Securities and Futures Commission, Ministry of Finance to capitalize its capital surplus of NT\$123,372,110, which brought the total capital to NT\$1,590,812,460.
- 1998: In October of this year, the Corporation was approved by the Securities and Futures Commission, Ministry of Finance to increase its capital by cash of NT\$909,185,540, which brought the total capital to NT\$3.5 billion.
- 1999: In March of this year, the board approved proposal to capitalize capital surplus of NT\$105 million, which brought the total capital to NT\$3.605 billion. In June of this year, the Corporation was approved by the Securities and Futures Commission, Ministry of Finance to capitalize its capital surplus of NT\$105 million, which brought the total capital to NT\$3.605 billion.
- 2000: In January of this year, the head quarter is moved to the self-built New Asia Songshan Building; in February of the same year, the former general manager Yen-Ching Chang retired, and the vice general manager Chu Tai-Sheng was appointed general manager. In June, the board of directors decided to appoint a vice chairman and the managing director, Tzou Hong-Kee, was appointed.
- 2001: In February, the Taipei City Government awarded the Corporation with the Certificate of Excellent Constructor Vendor in 2000. In March, the Ministry of Economic Affairs approved capital reduction due to the implementation of treasury stock by NT\$57,550,000. The capital was registered as NT\$3,577,450,000.
- 2004: On June 23, the shareholders' meeting resolution approved of a capital reduction of NT\$1,455,650,900 and a retirement of 145,565,090 shares. After the capital reduction, the paid-in capital was NT\$2,091,799,100, divided into 209,179,910 shares.
- 2010: Chairman Tzou Tzu-Kuen was discharged and became honorary chairman on June 15. Vice chairman, Mr. Tzou, was appointed as the chairman of the 16th term board. In October, the board of directors approved of the purchase of 36% of shares of Singapore Hsin-Hsing Power Development Co., Ltd. through its subsidiary. After the shares are transferred to the Corporation, it held 100% of the shares and indirectly held 99% of the equity of Nantong Hsin-Hsing Thermoelectric Co., Ltd.
- 2011: In September, the Corporation was approved by the Financial Supervisory

Commission approved to capitalize its earnings and issue 11,714,075 new shares, with an amount of NT\$117,140,750. After the capital increase, the paid-in capital became NT\$2,208,939,850, divided into 220,893,985 shares.

On March 31, Singapore Hsin-Hsing Power Development Co., Ltd. changed its name to Singapore New Asia Technology Development Co., Ltd.

- 2012: In September, the Corporation was awarded Public Construction Quality Award for "Constriction of New Electricity Service and Maintenance Center with underground and Electricity Distribution and Substation Facilities Joint Office Building (Civil Engineering Turnkey Project)."

In July, the Corporation was approved by the Financial Supervisory Commission approved to capitalize its earnings and issue 11,044,699 new shares, with an amount of NT\$110,446,990. After the capital increase, the paid-in capital became NT\$2,319,386,840, divided into 231,938,684 shares.

From August 7 to September 12, a total of 5,000,000 shares were repurchased.

- 2013: In October, the Corporation was awarded 13th Public Construction Golden Quality Award and the Merit Award by the Executive Yuan for "Constriction of New Electricity Service and Maintenance Center with underground and Electricity Distribution and Substation Facilities Joint Office Building (Civil Engineering Turnkey Project)" and "Construction of the Western Coast Expressway 190k+028~193k+270 (WH50 standard) Hanbao to Xincheng section."

In August, the Corporation was approved by the Financial Supervisory Commission approved to capitalize its earnings and issue 4,538,773 new shares, with an amount of NT\$45,387,730. After the capital increase, the paid-in capital became NT\$2,364,774,570, divided into 236,477,457 shares.

This year, a total of 5,199,000 shares were repurchased, and the aggregated number of treasury shares was 10,199,000 shares.

- 2014: The Corporation was awarded 14th Public Construction Golden Quality Award by the Executive Yuan for "CL115 Standard Taiwan Railways Underground Construction Project (dig then bury) on Section 3, Zhonghua Road" and "Yuanlin Construction of Elevated Station and Electrical and Mechanical Work."

- 2015: The Corporation was awarded 15th Public Construction Golden Quality Award by the Executive Yuan for "Construction of Provincial Highway 9 Suhua Highway from Dongao to Dongyue Section."

The fourth repurchase repurchased a total of 5,000,000 shares. If such shares are not transferred to employees within three years, they will be retired. The base date for the retirement of treasury shares was September 12, 2015, and registration with the Ministry of Economic Affairs was completed on September 24, 2015. The aggregated number of treasury shares was 5,199,000 shares.

- 2016: The Corporation was awarded Public Construction Excellence Award by the Taipei City Government for the "Construction of National Housing and 2017 Universiade Athletes' Village Turnkey Project Third Bid in Linkou" and the 16th Public Construction Golden Quality Award by the Executive Yuan for "Construction of the Western Coast Expressway 195k+995~199k+348.5(WH50-2) Wanggong to Yongxing section."

The fifth and sixth repurchases repurchased 1,699,000 shares and 3,500,000 shares, respectively. If such shares are not transferred to employees within three years, they will be retired. The base date for the retirement of treasury shares was July 21, 2016, and registration with the Ministry of Economic Affairs was completed on August 5, 2016.

The aggregated number of treasury shares was 0 shares.

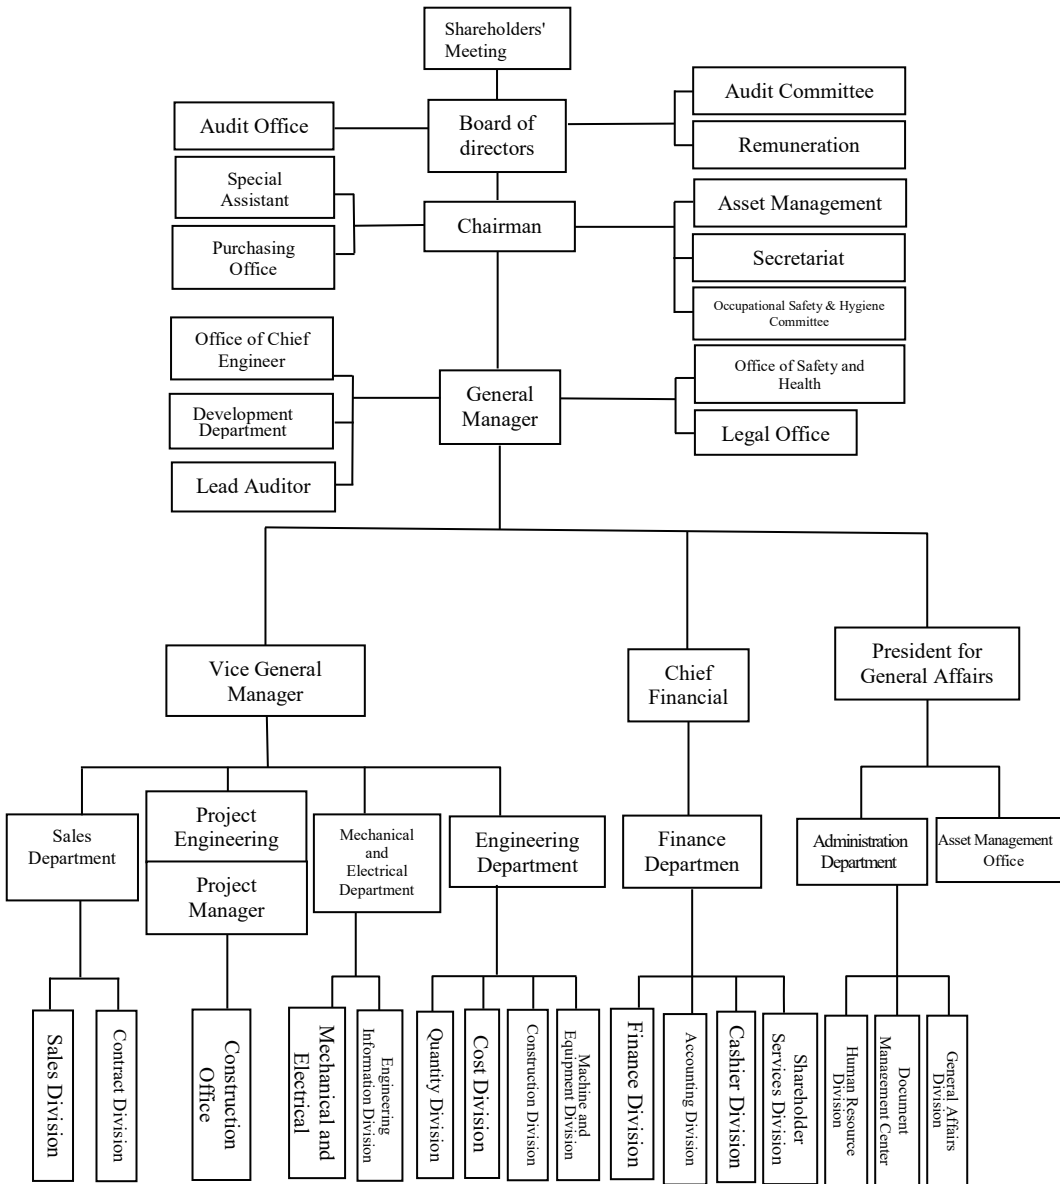

The subsidiary of the Corporation had transferred all equity of Nantong Hsin-Hsing Thermoelectric Co., Ltd., to the counterparty on August 19, 2016.

- 2017: On December 27, 2017, the Investment Commission, Ministry of Economic Affairs approved of the indirect investment in Nantong Xin Yue Health Management Co., Ltd.
- 2018: The Corporation was awarded first place of the Golden Road by the MOTC for "Construction of the Western Coast Expressway 195k+530~199k+087(WH52) Wanggong to Yongxing section"; the 7th Construction Safety Award Excellence - Public Construction Award and 2017 Department Construction Site Safety and Health Competition Excellence Award - Construction Group by the New Taipei City Government and Department of Rapid Transit Systems, Taipei City Government respectively for "Civil Engineering Construction of Wanda-Zhonghe-Shulin Line (first phase) LG06 Station"; Merit of the 12th Public Construction Golden Safety Award - Construction Class A Group by the Executive Yuan for "Construction of the Western Coast Expressway 204K+530~209K+087(WH52) from Xinjie Village to Dacheng Road" and 18th Public Construction Golden Quality Award by the Executive Yuan for "Construction of the Western Coast Expressway 199K+720~204K+530 (WH51) Yongxing section to Xinjie Road."
- 2019: The Corporation was awarded the 8th Construction Safety Award Merit - Public Construction Award and 2018 Department Construction Site Safety and Health Competition Merit Award - Construction Group by the New Taipei City Government and Department of Rapid Transit Systems, Taipei City Government respectively for "Civil Engineering Construction of Wanda-Zhonghe-Shulin Line (first phase) LG06 Station"; the 8th Construction Safety Award Merit - Public Construction Award by the New Taipei City Government for "Turnkey Project of Ankeng light rail transit - civil engineering"; Merit of the 13th Public Construction Golden Safety Award by the Executive Yuan for "Construction of the National Highway 4 (C715) Taichung Tanzi Circular Interchange" and 19th Public Construction Golden Quality Award by the Executive Yuan for Construction of the Western Coast Expressway 209K+087~209K+087(WH52) from Xinjie Village to Dacheng Road.
- 2020: The Corporation was awarded the 2019 Department Construction Site Safety and Health Competition Merit Award - Construction Group by the Department of Rapid Transit Systems, Taipei City Government respectively for "Civil Engineering Construction of Wanda-Zhonghe-Shulin Line (first phase) LG06 Station" the 8th Construction Safety Award Merit - Public Construction Award by the New Taipei City Government for "Turnkey Project of Ankeng light rail transit - civil engineering" and the 20th Public Construction Golden Quality Award for "Construction of the National Highway 4 (C715) Taichung Tanzi Circular Interchange."
- 2021: The Corporation was awarded the 10th Construction Safety Award Merit Public Construction Award and 2020 Department Construction Site Safety and Health Competition Merit Award - Construction Group by the New Taipei City Government and Department of Rapid Transit Systems, Taipei City Government for Civil Engineering Construction of Wanda-Zhonghe-Shulin Line (first phase) LG06 Station; the 15th Public Construction Golden Safety Award for Civil Construction Turnkey Project of Kaohsiung Metropolitan Area Mass Rapid Transit System

Ganshan/Luzhu Extension (Phase I).

2022: National Freeway 4 Taichung Circular Line Fengyuan-Tanzi Section Tender C715 Project conferred 1st place in Outstanding Project at the 2022 Golden Road Award of the Ministry of Transport.
East-West Expressway Provincial Highway 76 (3k+700 - 11k+585) Wenjin - Xihu Section construction project named as Outstanding Work at the 16th Golden Safety Award for Public Works

(3) Diversity and independence of the Board of Directors:

Based on the policy of diversification and strengthening of corporate governance in order to promote the sound development of the Company's board composition and structure, the nomination of candidates for directors of the Company shall be adopted the candidate nomination system in accordance with the provisions of the Company's Articles of Incorporation. Each candidate's academic qualifications, work experience, professional background, integrity or relevant professional qualifications, and others are evaluated and considered. After the Board of Directors passed the resolution, the proposed nominees will be submitted to the Shareholders Meeting for election.

The Board of Directors of the Corporation consists of six directors and three independent directors (accounting for 33%), and two directors with employee status (accounting for 22%). In order to implement the local policy of promoting gender equality, the Board of Directors of the Corporation also has two female directors (accounting for 22%).

None of the circumstances prescribed in paragraph 3 and paragraph 4, Article 26-3 of the Securities Exchange Act exist among the directors and independent directors.

The composition of the Board of Directors should be based on its own operations, operational patterns and developmental needs, formulated appropriate diversification policies including but not limited to the following:

1. Basic conditions and value: gender, age and nationality.
2. Professional knowledge and skills: operational judgment capability, accounting and financial analysis capability, business management capability, risk management capability, industry knowledge, international market outlook, leadership capability, and decision-making capability.

The implementation status of the board diversity policy is as follows:

Core of diversity Name	Nationality	Gender/Age	Operational judgment capability	Accounting and financial analysis ability	Business management capability	Risk management capability	Industry knowledge	International market outlook	Leadership ability	Decision-making ability

6.Provision of such tangible objects as cars etc. for director, general manager and vice general manager in 2022:

Unit: NTD 1,000

Car	Price bought	Actual unrounded balance	Driver	Note
Company car for the chairman	0	0	732	Monthly Rental 488
Company car for the general manager	0	0	708	Monthly Rental 47
Company car for the vice general manager	0	0	0	Monthly Rental 39

Provision of other tangible objects: None.

(II)Separate comparisons and descriptions of total remuneration, as a percentage of net income stated in the individual financial reports, as paid by the Corporation and all other companies included in the consolidated financial statements during the past two fiscal years to directors, supervisors, the general manager, and vice general manager, with analysis and description of remuneration policies, standards, and packages, procedure for determining remuneration, and link to performance:

1. Ratio of Total Remuneration to Net Income for the Year (%)

Title	Proportion to Earnings After Tax (%)			
	2021(Restatement)		2022	
	The Corporation	All companies included into the financial statement	The Corporation	All companies included into the financial statement
Director	4.12%	5.14%	-1.46%	-2.80%
Head of Corporate Governance	9.70%	10.31%	-1.35%	-1.36%

2. Remuneration policies

The remuneration payment policies, standards, and packages for the directors, general manager, and vice general managers of the Corporation are stipulated in the Corporation's Articles of Incorporation, resolved by the board of directors, submitted to the annual shareholders' meeting, and implemented in accordance with the Rules Governing Remuneration Management.

3. Report on the Distribution of Directors' Remuneration of the Corporation for the Year 2022

The Corporation's net profit after tax decreased by 890,370 thousand (a decrease of 760%) in 2022 compared with 2021 due the recent impact of the pandemic, labor shortage and rising prices on projects clinched many years ago. However, the average amount of remuneration paid to each director (excluding part-time employee remuneration) by all companies stated in the 2022 consolidated statements increased by \$860 thousand (an increase of 140%) compared with that in 2021. This is due to the retained surplus of subsidiary in 2021 was distributed as the payment for directors' remuneration in 2022, resulting in an increase in directors' remuneration in 2022.

IV. Implementation of corporate governance

(I) Board of directors

A total of 6 (A) board meetings were held in 2022. The attendance of the directors was as follows:

Title	Name	Attendance in Person (B)	By Proxy	Attendance Rate(%)【BA】 (Note 1)	Note
Chairman	Tzou Hong-Kee	6	0	100	June 24, 2022 elected during re-election
Director	Tzou Jen-Bin	3	1	75	June 24, 2022 elected as new term, should attend 4 times
Director	Wu Su-Chung	4	2	66.67	June 24, 2022 elected during re-election
Director	Hsu Chen-Shiang	6	0	100	June 24, 2022 elected during re-election
Director	Chang Che-San	3	3	50	June 24, 2022 elected during re-election
Director	Tung Ding-Yu	6	0	100	June 24, 2022 elected during re-election
Director	Wu Hui-Chun	6	0	100	June 24, 2022 elected during re-election
Independent Director	Lee Shah-Rong	6	0	100	June 24, 2022 elected during re-election
Independent Director	Chen Tzu-Hsiun	5	1	83.33	June 24, 2022 elected during re-election
Independent Director	Chiang Mao-Lin	4	0	100	June 24, 2022 elected as new term, should attend 4 times

Note: Director elected at the shareholders' meeting convened on June 18, 2019 Other mentionable items:

- I. With regard to the implementation of the board of directors, if any of the following circumstances occur, the dates, terms of the meetings, contents of motions, all independent directors' opinions and the Corporation's handling of such opinions shall be specified:
- (1) Matters referred to in Article 14-3 of the Securities and Exchange Act: Not applicable. The Corporation has set up an audit committee for matters stipulated in Article 14-5 of the Securities and Exchange Act.
 - (2) Any recorded or written board resolutions to which independent directors have objections or reservations to be noted in addition to the above: None.
- II. Regarding recusals of directors from voting due to conflicts of interests, the names of the directors, contents of motions, reasons for recusal, and results of voting shall be specified:

Board of Directors Date	Content of the motion	Recusal reason(s) and participation in voting
2022.12.29 The 4th meeting of the 12th term	The Corporation's Remuneration Committee deliberated on the manager's year-end bonus proposal.	Chairman Tzou Hong-Kee and Director Tsou Jen-Pin are interested parties in this proposal. They were requested to recuse themselves in accordance with the law and not participate in discussions or voting. The Chairman designated an acting chairman and attending directors passed the proposal without objection.

- III. The evaluation cycles, evaluation periods, scope and method of evaluation, and contents of evaluation for evaluating the performance of the board members on themselves (or peers). The implementation of evaluation for the board of directors is filled in the following table:

Implementation of the board's evaluation in 2022

Frequency	Period	Scope	Method	Content
Once a year	2022.01.01 ~ 2022.12.31	1. Board of directors 2. Board members 3. Functional committees	Internal self-evaluation of the board of directors, committees and the board members	Note:

Note: Content of the evaluation

- (1) Evaluation of performance for the board of directors: Including participation in the operation of the

Corporation, enhancement of the quality of the board of directors' resolution, composition and structure of the board of directors, election and continuing education of the directors, and internal control; a total of 42 indicators for the five major aspects.

- (2) Evaluation of performance for the individual board members: Including alignment of the goals and missions of the Corporation, awareness of the duties of a director, participation in the operation of the Corporation, management of internal relationship and communication, the director's professionalism and continuing education, and internal control; a total of 22 indicators for the six major aspects.
- (3) Evaluation of performance for the audit committee: Including participation in the operation of the Corporation, awareness of the duties of the functional committee, the quality of decisions made by the functional committee, makeup of the functional committee and election of its members, and internal control; a total of 21 indicators for the five major aspects.
- (4) Evaluation of performance for the remuneration committee: Including participation in the operation of the Corporation, awareness of the duties of the functional committee, the quality of decisions made by the functional committee, composition of the functional committee and election of its members; a total of 19 indicators for the four major aspects.

IV. Measures undertaken during the current year and past year in order to strengthen the functions of the board of directors (such as the establishment of an audit committee and improvement of information transparency, etc.) and assessment of their implementation:

- (1) To implement corporate governance and enhance the functions of the board of directors as well as to establish performance targets so as to enhance the operational efficiency of the board of directors, the Corporation has established the "Regulations Governing the Evaluation of the Performance of the Board of Directors" in 2019 and implemented internal evaluation.
- (2) In accordance with the regulations of the competent authorities, the Corporation prepares English financial reports and information related to shareholders' meetings, and publishes significant information in English to enhance information transparency.

(II) Audit Committee:

A total of 5 (A) meetings of the audit committee were held in 2022. The attendance of independent directors was as follows:

Title	Name	Attendance in Person (B)	By Proxy	Actual attendance rate (%) 【B/A】 (Note 1)	Note
Independent Director	Lee Shah-Rong	5	0	100	June 24, 2022 elected during re-election
Independent Director	Chen Tzu-Hsiun	4	1	80	June 24, 2022 elected during re-election
Independent Director	Chiang Mao-Lin	3	0	100	June 24, 2022 elected as new term, should attend 3 times

Other mentionable items:

I. If any of the following events occurred, the dates of the meetings, sessions, summary of proposals, opinions of all the independent directors and the Corporation's responses should be specified:

Audit Committee	Proposal content	Opinions or major suggestions of independent directors	Resolution	Dealing with the opinion from the audit committee
12th meeting of the 1st term committee 2022.03.15	1. Adoption of the 2021 business report and financial statements. 2. Approval of 2021 earnings distribution. 3. Approval of the 2021 "Statement of Internal Control System." 4. Approval of the amendment to the Procedures for Acquisition or Disposal of Assets by the Corporation. 5. Approved of independence assessment of the CPAs for this Corporation.	None	Passed by the agreement of all committee members.	The Board of Directors agreed to the resolution of the Audit Committee

Independent Director	Chen Tzu-Hsiun			0
Independent Director	Chiang Mao-Lin			0

(2) Functions of the remuneration committee:

In accordance with the remuneration committee charter of the Corporation, the remuneration committee shall exercise the care of a good administrator in faithfully performing the official powers listed below, and shall submit its recommendations for deliberation by the board of directors.

- I. 1. Periodically reviewing the said charter and making recommendations for amendments.
- II. Establishing and regularly reviewing the board and management's annual and long-term performance goal evaluation in conjunction with the remuneration policies, systems, standards, and structure.
- III. Periodically assessing the degree to which performance goals for the directors, supervisors, and managerial officers of this Corporation have been achieved, setting the types and amounts of their individual compensation.

(3) Information about remuneration committee members:

- I. There are a total of 3 members in the remuneration committee.
- II. The term of the current remuneration committee: June 24, 2022 to June 23, 2025. A total of 2 (A) remuneration committee meetings were held in the most recent year (2022). The information and attendance of the members was as follows:

	Name	Attendance in Person (B)	By Proxy	Attendance Rate (%) 【B/A】 (Note)	Note
Convener	Lee Shah-Rong	2	0	100	
Committee Member	Chen Tzu-Hsiun	2	0	100	
Committee Member	Chiang Mao-Lin	2	0	100	

Other mentionable items:

- I. If the board of directors refuses to adopt or amend a recommendation of the remuneration committee, the date of the meeting, session, content of the motion, resolution by the board of directors, and the Corporation's response to the remuneration committee's opinion (e.g., if the remuneration passed by the board of directors exceeds the recommendation of the remuneration committee, the circumstances and cause for the difference shall be specified) shall be specified: None.
- II. If there were resolutions of the remuneration committee to which members objected or expressed reservations, and for which there is a record or declaration in writing, the date of the meeting, session, content of the motion, all members' opinions and the response to members' opinion shall be specified: None.
- III. Motions discussed and resolutions by the remuneration committee and the Corporation's responses to members' opinions:

Date/Term	Discussions and results of resolutions and the Corporation's handling of opinions of the committee members:
2022.11.09 1th meeting of the 5th term committee	1. Amendments to the "Organizational Rules of the Remuneration Committee" of the Corporation. <ul style="list-style-type: none"> ■ Resolution results: Passed by the agreement of all committee members. ■ The Corporation's responses to members' opinions: Approved by the unanimous decision of the attending directors.
2022.12.29 2th meeting of the 5th term committee	1. 2022 year-end bonuses for managers reviewed by the remuneration committee of the Corporation. <ul style="list-style-type: none"> ■ Resolution results: Passed by the agreement of all committee members. ■ The Corporation's responses to members' opinions: Approved by the unanimous decision of the attending directors.

(V) Implementation of Corporate Social Responsibility and Deviations from the "Corporate Social Responsibility Best-Practice Principles for the TWSE/TPEX Listed Companies" and Reasons Thereof

Evaluation Item	Implementation Status (Note 1)			Deviations from the "Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies" and Reasons Thereof
	Yes	No	Summary	
I. Has the Corporation established a dedicated unit or appointed a unit for promoting sustainable development? Is the unit authorized by the board of directors to implement sustainable development activities at upper management levels? Is the unit supervised by the board of directors??	✓		The Corporation has established a Sustainable Development Committee, with the Managing Director as the chairman, the department heads as the executive members, and designated a person as the General Manager to coordinate the implementation of the governance affairs of promoting sustainable development in the management team, the sustainable environment team and the labor rights team. The implementation shall be reported to the Board of Directors every year after completing the preparation of the annual ESG sustainability report.	No material difference.
II. Does the Corporation follow materiality principle to conduct risk assessment for environmental, social and corporate governance topics related to company operation, and establish risk management related policy or strategy?	✓		The Corporation has established a Sustainable Development Committee, and the senior managers and stakeholders of the Corporation jointly select environmental, social and corporate governance issues that have a significant impact on the Corporation's operations, and each department of the Corporation will review and promote the issues. They will simultaneously review the Corporation's current situation and discuss relevant risk management policies.	No material difference.
III. Environmental Topics (I) Has the Corporation established proper environmental management systems based on the characteristics of the industries?	✓		(I) The Company's business is in the construction industry. In the development of various construction projects, the three main types of pollution generated are dust, noise and business waste. In order to reduce the negative impact of the above three types of pollution on the ecological environment and to avoid public discontent caused by the development, the Company not only complies with various environmental protection laws and regulations, implements management measures such as air pollution suppression, noise reduction	No material difference.

Evaluation Item	Implementation Status (Note 1)			Deviations from the "Sustainable Development Best-Practice Principles for TWSE/TPEX Listed Companies" and Reasons Thereof
	Yes	No	Summary	
(II) Is the Corporation committed to improving resource efficiency and to the use of renewable materials with low environmental impact?	✓		and waste disposal, but also cooperates with the environmental impact assessment commitments of each project and establishes various environmental management systems such as spraying water on exposed surfaces, greening and noise reduction in construction fences, real-time noise monitoring Internet of Things and carbon footprint investigation, etc., so as to fulfill the Company's social responsibility. (II) To reduce the impact of construction projects on the ecological environment, the Company has adopted the principle of "green procurement" in the procurement or leasing of various types of hardware such as government vehicles, machinery and equipment, and construction materials. In response to the government's policy of "green consumption" in recent years, the Company purchases or leases products with green labels to improve energy efficiency and use recycled materials that have a relatively low impact on the environment. Based on the overall performance in 2022, the Company's green procurement amounted to NT\$34,787,750, which mainly included various types of energy-saving electronic products and green building materials using recycled materials.	No material difference.
(III) Does the Corporation evaluate current and future climate change potential risks and opportunities and take measures related to climate related topics?	✓		(III) The climate change caused by the greenhouse effect has an obvious impact on the construction industry, from the base development to the construction stage, which has a significant impact on the safety, quality and progress of construction. Therefore, in recent years, we have been actively promoting "green procurement" and striving for various "Green Building Label" social housing construction projects. Through our	No material difference.

Evaluation Item	Status (Note 1)			Deviations from the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies" and Reasons Thereof
	Yes	No	Summary	
V. If the Corporation has established ethical corporate management policies in accordance with the "Ethical Corporate Management Best Practice Principles for TWSE/TPEx Listed Companies," please describe any discrepancy between the policies and its practices: No material difference.				
VI. Other important information to facilitate better understanding of the Corporation's ethical corporate management (e.g., review of and amendments to ethical corporate management policies) The Corporation's board of directors approved the "Ethical Corporate Management Policies" on March 25, 2015, and the "Procedures for Ethical Management and Guidelines for Conduct" on November 6, 2020. The Corporation adheres to the Company Act, the Securities and Exchange Act, and relevant regulations in relation to the TWSE/TPEx listed companies and other relevant law and regulations, as foundation for ethical corporate management.				

(VII) Please disclose access to the Corporation's Corporate Governance Best Practice Principles and related rules and regulations, if any:

1. The Corporation currently has formulated Ethical Corporate Management Policies, Code of Ethical Conduct and other relevant rules to implement the operation and promotion of corporate governance.
2. Relevant information is disclosed on the Corporation's website and MOPS.

(VIII) Other important information regarding corporate governance:
Procedures for Handling Material Inside Information: The Corporation has established "Procedures for Handling Material Inside Information" as the principles that all the Corporation's directors, supervisors, managers, and employees shall comply with. These rules clearly state the laws, articles, and regulations that the Corporation's directors, supervisors, managers, and staff shall comply with, including laws on insider trading.

(IX) Disclosure of internal control system

1. Statement of Internal Control System

Statement of internal control system of public companies

The design and implementation are both effective

(In terms of legal compliance, this Statement is applicable when all legal compliance has been met)

New Asia Construction & Development Corp.

Statement of Internal Control

Date: March 09, 2023

The Corporation hereby states the results of the self-evaluation of the internal control system for 2022 as follows:

- I. The Corporation understands that the board and management of the Corporation are responsible for establishing, implementing and maintaining adequate internal control. The Corporation has established an effective internal control system which aims to reasonably assure the operational results and effectiveness (including profitability, performance and assets security, etc.), the reliability, timeliness and transparency of its report and the compliance with applicable laws and regulations.
- II. Due to its inherent limitations, an effective internal control system can only reasonably ensure the achievement of the three objectives above, no matter how complete and perfect the design of the system is. Besides, the effectiveness of the internal control system may vary due to changes in the environment or conditions. However, the Corporation has set up a self-monitoring mechanism on the internal control system, which allows the Corporation to take corrective actions as soon as any error or inadequacy is identified.
- III. The Corporation has assessed the design and operating effectiveness of the internal control system in accordance with the criteria effectiveness assessment of internal control system, listed in the Framework for the Establishment of Internal Control System by Public Companies (the "Framework"). The criteria listed in the Framework divides the internal control system into five components based on management control process. The five components are i) Control environment, ii) Risk assessment, iii) Control activities, iv) Information and communication, and v) Monitoring. Each component comprises of several elements. For more information, please refer to the Framework.
- IV. We have assessed the design and operating effectiveness of the Corporation's internal control system based on the criteria listed in the Framework.
- V. Based on the results of the determination in the preceding paragraph, the Corporation is of the opinion that, as of December 31, 2022, the internal control system (including the supervision and management of subsidiaries), including the design and implementation of the internal control system relating to the effectiveness and efficiency of the operations, reliability, timeliness, and transparency of reporting, and compliance with applicable laws and regulations, is effective and can reasonably assure the achievement of the foregoing goals.
- VI. This statement will be included as an integral part of the annual report and the prospectus of the Corporation and be disclosed to the public. Any false or fraudulent representations and concealment of information in this statement shall be subject to the legal liabilities prescribed by Article 20, Article 32, Article 171 and Article 174 of the Securities and Exchange Act.
- VII. This statement was approved by the board of directors on March 09, 2023, and none of the nine directors in attendance objected to it and all consented to the content expressed in this statement.

New Asia Construction & Development Corp.

Chairman: TZOU HONG-KEE

General Manager: Lai Tiao-Tsan

2. A separate audit report shall be disclosed where an independent registered public accounting firm has reviewed the Corporation's internal control system: None.

(X) Penalties imposed upon the Corporation and its employees in accordance with the law, penalties imposed by the Corporation upon its employees for the violation of the internal control system policy, principal deficiencies, and improvement status during the most recent fiscal year up to the date of publication of the annual report: None.

(XI) Major resolutions of shareholders' meeting and board meetings during the most recent fiscal year up to the date of publication of the annual report:

1. Important resolutions of the 2022 shareholders' meeting:

Summary of Important Motions	Execution Status
<p>I. Items for Ratifications:</p> <p>1. The Corporation's 2021 business report and final statement.</p> <p>2. The Corporation's 2021 profit and loss appropriation plan.</p> <p>II. Items for Discussion:</p> <p>1. Amendment for the Corporation's Articles of Incorporation.</p> <p>2. Amendment for the Corporation's Procedures for the Acquisition or Disposal of Assets.</p> <p>III. Election matters: Proposal for the election of the 20th Board of Directors.</p> <p>IV. Other matters: Discussion on the lifting of non-compete restrictions on new directors and their representatives of the Corporation.</p>	<p>The implementation has been completed in accordance with the resolution of the shareholders' meeting.</p>

2. Important resolutions of the board of directors: The summary of the important resolutions during December 31, 2022 and as of the end of March of 2023 are as follows:

Date of Board Meeting	Summary of Important Motions
2022.03.15	15th meeting for the 19th term of Board of Directors.
	1. Approved the Corporation's 2021 business report and financial statements.
	2. Approved the Corporation's 2021 profit and loss appropriation plan.

1,000,001 or more	37	0.09	102,409,222	45.26
Total	37,414	100	226,278,457	100

2. Issuance of preferred shares: None.

(IV) List of major shareholders

April 29, 2023

Name of major shareholder (Note)	Shareholding	Holding Shares	Share ownership (%)
Tzou Hong-Kee		10, 845, 271	4. 79%
Tzou Ming-Chi		8, 886, 046	3. 93%
Tzou Wei-Kee		7, 264, 360	3. 21%
Tzou Cheng-Kee		7, 106, 493	3. 14%
Hsu Wen-Ji		5, 500, 000	2. 43%
Tzou Jen-Chieh		4, 400, 907	1. 94%
Tzou Jen-Bin		4, 400, 609	1. 94%
Liu Yue-Chin		4, 316, 122	1. 91%
Tsao Yue-Tai		4, 145, 681	1. 83%
Chen Cheng-Tso		3, 537, 744	1. 56%

Note: The list of major shareholders includes shareholders with 5% or more share ownership and/or the top 10 largest shareholders.

(V) Share prices for the past two fiscal years, with company net worth per share, earnings per share, dividends per share, and related information:

Unit: NT\$; 1000 shares

Description		Year	2021	2022	As of March 31,
		(Restatement)			2023(Note 8)
Market price per share (Note 1)	Highest		7. 18	6. 96	5. 23
	Lowest		4. 65	4. 70	4. 76
	Average		5. 70	5. 34	4. 98
Net value per share (Note 2)	Before distribution		8. 76	6. 02	6. 28
	After distribution		8. 76	6. 02	6. 28
Earnings per Share (Note 3)	Weighted average of shares		226, 279	226, 279	226, 279
	Earnings per share (before adjustment)		0. 52	(3. 42)	0. 27
	Earnings per share (after adjustment)		0. 52	(3. 42)	0. 27
Dividends per share	Cash dividend		--	--	--
	Stock dividends	--	--	--	--
		--	--	--	--
	Accrued unpaid dividends (Note 4)		--	--	--
Return on investment	P/E ratio (Note 5)		--	--	--
	Price/dividend ratio (Note 6)		--	--	--
	Cash dividend yield (%) (Note 7)		--	--	--

* In the case of retained shares distribution or capital surplus shares distribution, please also disclose the information about the market value and cash dividend adjusted retroactively

based on the quantity of shares as distributed.

Note 1: Please identify the highest market value and the lowest market value of the common stock in various years, and calculate the average market price for each year based on the trading value and turnover for each year.

Note 2: Please fill out the figures according to the number of outstanding shares at the end of the fiscal year and the resolution regarding distribution by the shareholders' meeting the following year.

Note 3: Please fill out basic and diluted earnings per share if retroactive adjustment is necessary due to stock dividend payout.

Note 4: If the issuance conditions of the equity securities stipulate that the undistributed dividends of the current year may be aggregated to the year with surplus to be distributed. The accumulated unpaid dividends as of the current year shall be disclosed separately.

Note 5: $\text{Price/Dividend Ratio} = \text{Average Market Price per Share} / \text{Cash Dividend per Share}$, if the EPS of the current year is below 0, then the price/dividend ratio shall not apply.

Note 6: $\text{Price/Dividend Ratio} = \text{Average Market Price per Share} / \text{Cash Dividend per Share}$

Note 7: $\text{Cash Dividend Yield} = \text{Cash Dividend per Share} / \text{Average Market Price per Share}$

Note 8: Please identify the net value per share and EPS available in the latest quarterly financial information audited (reviewed) by the independent auditor before the date of publication of the annual report, and the information available until the date of publication of the annual report in the other sections.

Note 9: The earnings distribution has been approved by the board, yet to be adopted by the annual shareholders' meeting.

(VI) Corporation's dividend policy and implementation thereof:

1. Corporation's dividend policy:

Based on the Articles of Incorporation, the annual earnings of the Corporation shall be first appropriated to pay taxes and offset accumulated losses before allocating 10% of the remaining earning to the legal reserve (not applicable where accumulated legal reserve has reached the amount required by law and regulations) and a special reserve in accordance to the applicable law and regulations. Any retained earnings available for distribution together with accumulated undistributed retained earnings may be proposed by the board of directors to appropriate and be resolved at the annual shareholders' meeting.

With consent from the majority of attending directors which represents more than two-thirds of all directors, the Corporation may appropriate a part or all of dividends, bonuses, legal reserve or capital surplus to be distributed in the form of cash. In addition, the distribution proposal shall be submitted to the shareholders' meeting. This Corporation is in the construction industry, the Corporation is in its mature stage and will continue to invest to expand its business and seek new opportunities for transformation to ensure its competitiveness. In formulating the earning distribution proposal, the board of directors will consider the stability and growth of dividends, and the most appropriate dividend distribution policy depending on the operation of the year and the future budget planning; shareholders' bonus shall be no less than 10% and cash dividends shall be no less than 20% of the total proposed dividends.

2. Allocation of dividends proposed at the shareholders' meeting:
None distributed for 2022.
 3. Expecting any major change in dividend policy: None.
- (VII) Effect upon business performance and earnings per share of any stock dividend distribution proposed or adopted at the most recent shareholders' meeting: N/A.
- (VIII) Employee bonus and remuneration to directors:
1. Proportion or scope of employee bonus and remuneration to directors as stated in the Corporation's Articles of Incorporation.
Provisions in the Articles of Incorporation:
Article 27: If the Corporation makes profits for the current year, it shall set aside 5% as employee compensation, and no more than 3% as remunerations of the directors. However, if there are still accumulated losses, the Corporation shall reserve the amount to be covered in advance, and then allocate employees' and directors' compensation in proportion as stipulated in the preceding paragraph. Employee compensation shall be resolved by the board of directors to be distributed in the form of shares or in cash. Qualification requirements of employees shall include the employees of parents or subsidiaries of the Corporation meeting certain specific requirements.
 2. Basis used for employee compensation, remuneration for directors for the year, basis used for calculating the number of shares distributed as employee compensation, and the accounting of variances between the actual distribution and the estimated amount:
No employee compensation, remuneration for directors was distributed.
 3. Information about allocation of bonus resolved by the board meeting:
 - (1) Amount of remuneration distributed to employees and Directors in the form of cash or stock: None distributed.
 - (2) The amount of any employee remuneration distributed in stocks, and the size of that amount as a percentage of the sum of the after-tax net income stated in the parent company only financial reports or individual financial reports for the current period and total employee remuneration: None distributed.
 4. Distribution of compensations to employees, directors and supervisors in the previous year: None distributed.
- (IX) Share repurchases: None.

- II. Issuance of corporate bonds: None.
- III. Issuance of preferred shares: None.
- IV. Status of participation in issuance of Global Depository Receipts (GDRs): None.
- V. Status of employee stock option: None.
- VI. Status of restricted employee share subscription warrant: None.
- VII. Issuance of new shares in connection with mergers or acquisitions or with acquisitions of shares of other companies: None.
- VIII. Implementation status of capital utilization plan: None.

Chapter 5 Operational Highlights

I. Business activities:

(I) Scope of business:

1. Current products of the Corporation:

- (1) 1st Engineering Office, Department of Rapid Transit Systems, Taipei City Government - Civil Engineering Construction of Wanda-Zhonghe-Shulin Line (first phase) LG06 Station
- (2) Department of Rapid Transit Systems, New Taipei City - Turnkey Project of Ankeng light rail transit - civil engineering
- (3) Railway Bureau, MOTC - Underground project of the Linsen Station of the C213 Section
- (4) Department of Urban Development, Taipei City Government - Turkey public housing project in A and B block bases in Liuzhangli District of Xinyi District
- (5) Mass Rapid Transit Bureau, Kaohsiung City Government - Turnkey Project of Kaohsiung MRT system extension from Gangshan and Luzhu (first phrase) - civil engineering
- (6) Department of Urban Development, Taipei City Government - Construction of foundation A for Xinglong National Housing, Taipei City phrase 2.
- (7) Department of Urban Development, Taipei City Government - Construction of foundation E for Xinglong National Housing, Taipei City phrase 2.
- (8) Department of Urban Development, Taipei City Government - Construction of Section I for Xinglong National Housing in Wenshan District, Taipei City.
- (9) Directorate General of Highways, MOTC - The construction of East-West bound Provincial Highway 76 (3K+700~11K+585) from Wenjin Village to Xizhuang Road (including agency contract for Taipower 161KV cable contract).
- (10) The National Housing and Urban Regeneration Center - Sanchong Fugui Section and Wugu Wang Section Social Housing turnkey construction project in New Taipei City.
- (11) Directorate General of Highways, MOTC - The construction of East-West bound Provincial Highway 76 (11k+585~16k+607) from Xizhuang to Xihu Road.
- (12) The National Housing and Urban Regeneration Center - Kaohsiung City Sanmin District Xindu Section Social Housing turnkey construction project in New Taipei City.
- (13) The National Housing and Urban Regeneration Center - Kaohsiung City Nanzhi District "Qingfeng Anju" Social Housing turnkey construction project in New Taipei City.
- (14) The National Taiwan Normal University - Chinese Language International School turnkey construction project.
- (15) National Housing and Urban Regeneration Center - new turnkey

construction project for social housing at Ren'ai Road-Wenhua Road intersection at New Taipei City Linkou District.

- (16) Directorate General of Highways, Ministry of Transportation and Communications - new construction project for East-West Expressway Provincial Highway 76 (16K+607~20K+890) Xihu - Wa Yao Section
- (17) British firm Bechtel Limited Taiwan Branch - CPC Corporation construction turnkey project of LNG storage tanks for the Taichung Phase III - civil engineering.

(II) Industry overview:

(1) Current status and development of the construction industry

The construction industry plays a vital role in Taiwan's economy. Due to the economic business cycle and the environment, the price of sand and gravel continues to rise, and the demand for construction materials is volatile. In addition, due to the domestic labor shortage and the continued rise of the prices of gasoline and steel in recent years, operation risks have increased. Fortunately, the government continues to adopt price adjustment plans which reduces the risk for the construction industry.

On the other hand, there are a large number of old buildings in the metropolitan area. Since Taiwan is located in an earthquake-zone, for the sake of disaster prevention, the Ministry of the Interior completed the legislation of the "Regulations Governing the Rewarding of Rebuilding Dangerous and Old Buildings in the Urban Area." It will promote the rebuilding and urban renewal, which will be beneficial for the construction industry in the medium and long-terms and serves as a source of business.

For future prospects, the government is limited by its tax income and expenditure. Apart from still actively investing in sewage treatment and some transportation construction projects, the number of BOT cases are on the rise. Therefore, we should enhance construction management techniques and ability, the ability for proper financial planning, and strictly manage profits to maintain the competitiveness.

(2) Relationship amongst upstream, midstream, and downstream of the industry

(3) Trends and competition for various product:

1. Development trends

Looking at the development of the construction industry in advanced countries; such as countries in Europe, the United States, and Japan; the construction industry and the financial institutions support each other, and the cost of financial capital is lower compared to our country. Furthermore, construction companies handle major projects by using a turnkey approach. Our government adopts BT and BOT approach for many major public projects. In order to take advantage of this trend and prevent foreign competition, the competition between the domestic construction companies grew intense and they gradually developed to become large-scale enterprise, that are committed to improving the research and development of construction engineering techniques to gain competitiveness. The future trends of the construction industry are as follows:

- a. Competition for public constructions becomes international and free. Since joining the WTO, we will inevitably sign government procurement agreements (GPA) with other countries and open our gates to foreign construction companies. In response to this trend, domestic companies might seek cooperation with foreign firms, explore the international market and work with foreign local firms. Therefore, matters related to international cooperation contracts, international capital allocation, and construction laws and regulations in different countries will dictate the future business strategies of construction companies.
- b. Adoption of the turnkey approach
Due to the financial situation of the government, in the future, it will actively encourage the private sector to participate in public construction investment, and the conduct public construction by BT and BOT projects. In response to this development trend, the construction industry must undergo major shifts. It must learn to integrate tasks such as the overall planning, design, and Investment of funds, construction, operations, etc. into its work flow, and at the same time, jointly operate with companies of other operating professions such as design consulting firms and financial companies through strategic alliances and co-investments. Inevitably upgrading its scale and ultimately encompassing industrial, commerce, service, etc.
- c. Corporate management, BIM integration and information management
Since it is expected that the construction industry will transform from a technical service industry into a composite industry, its business model will also change. Decisions regarding bidding will become a question of investment, introducing new techniques, emphasizing on efficiency, utilization of the budget and talents. BIM integration, information management and long-term corporate management will become the ultimate goals.

d. Emphasize on R&D:

As the construction companies will ultimately become large-scale enterprises, the competition in the market will only become fiercer, research and development will inevitably become more important, and the development of new construction methods, new machineries, new materials, etc. will enhance competitiveness.

e. Development of construction automation

The construction industry is bound to promote construction automation in the face of problems such as construction resource allocation and the change in the environment. Through construction automation and construction information management, refinement to reduce the demand for labor, increase productivity, protect the environment and enhance competitiveness to overcome current dilemmas.

f. Specialization

For the small and medium-sized construction companies, specialization will be the way forward, focusing on specific items, introducing new construction methods and machinery, take on tasks that requires specific specialty, and coordinating with larger firms.

To sum up, after joining the WTO, the domestic construction market will be fully accessible for the foreign firms, and Taiwan's construction industry will face greater challenges in the face of foreign competition. Since foreign construction companies are superior in terms of scale, experience, automation level, and level of capital, domestic companies need to actively improve their competitiveness. In the future, they need to become large-scale enterprises and jointly work on projects with foreign companies through technical cooperation to withstand foreign competition, and at the same time, the companies must pay more attention to their quality, capital, and the use of automated equipment to enhance its competitiveness. This is the future trend for the domestic construction industry.

2. Competitions

The Corporation's main scope of business is the contracting public projects. At present, there are more than 19,000 construction companies in the country with varying level of capital and scale. The scope of business for the top 20 domestic construction companies includes construction of residential buildings and various public projects. Those with similar scope of business to the Corporation include BES Engineering Corporation, Continental Engineering Corporation, TE CHANG CONSTRUCTION CO., LTD., DA CIN Construction Co., Ltd., CHIEN KUO CONSTRUCTION CO., LTD., HWANG CHANG GENERAL CONTRACTOR CO., LTD., KEDGE CONSTRUCTION CO., LTD., Far Eastern General Contractor Inc.,

Pan Asia Corp. and RSEA Engineering Corporation that has been become privatized, are the main competitor of the Corporation.

(III) Technology and R&D:

R&D expenses input and successfully developed technologies or products from the most recent year up to the publication date of the annual report: None; N/A.

(IV) Long- and short-term business development plans

Long-term business development plans

- Participate in BOT and turnkey projects
- Diversify operations and investment in industries with a bright prospect and long-term returns
- Collaborate with financial institutions, design consultants, and construction companies to form strategic alliances

Short-term business development plans

- Grasp information regarding business-related affair and set business goals
- Actively participate in the construction industry to build its the market and conduct construction on factories and plants for corporations
- Participate in the bidding of public projects, and targeting large-scale civil engineering projects and special projects
- Participate in BOT and turnkey projects

II. Analysis of the market as well as production and marketing situation

1. Market analysis 1. Sales of major products

Type of construction	2021 proportion of revenue (%)	2022 proportion of revenue (%)
Construction	32.64%	29.82%
Civil engineering	67.23%	70.14%
Others	0.13%	0.04%

2. Likely scenario of future demand and supply of the market:

Based on its economic development policy, the government is planning to comprehensively expand its investment on infrastructure. The goal is to build the infrastructure needed for the country's development in the next 30 years - "Foresight Infrastructure Projects" include five major constructions: green construction, digital construction, urban and rural construction, water environment friendly construction, and railway construction, totaling NT\$882.49 billion, which is estimated to encourage public and private sectors to invest NT\$17,777.73 billion. Among them, the Executive Yuan will promote the construction of the track for the eight-year period (2017-2024), and will invest a special budget of NT\$424.133 billion to improve the urban-rural gap by promoting the following: The 38 track construction projects in five major axes, including "High-speed rail and Taiwan Rail Link", "upgrading and improving eastern services of Taiwan Railways", "stereotyping of Taiwan Railways or speeding up commuting", "promoting

MRT in metropolitan areas", and "having tourist railroads in central and southern Taiwan".

3. Scale of industry:

In recent years, the number of construction companies has skyrocketed each year. According to the statistics of the Taiwan Regional Engineering Contractors Association, as of December 2022, there were 19,559 construction companies in Taiwan, of which only 3,148 were Grade A companies. Most construction companies are small in scale. The government has joined the World Trade Organization (WTO), and foreign competition have entered the domestic market. In response to future developments, the construction market structure will change drastically, and the scale of the comprehensive construction company will inevitably become large-scale enterprises.

(II) Major applications and processes of major products: 1. Major product and applications

(1) Civil engineering: highways, general roads, MRT engineering, railway engineering, viaducts, tunnels, earthmoving and land preparation works, nuclear energy structures, natural gas storage tanks.

(2) Construction projects: social residential buildings, factories, schools, landscapes, general residential buildings, and office buildings.

2. Product manufacturing process:

(1) Market research and decision-making → (2) Information from the industry → (3) Appraisal and bidding → (4) Successful bidding → (5) Budget preparation → (6) Construction planning → (7) Technical cooperation → (8) Procurement and outsourcing → (9) Labor arrangement → (10) Construction → (11) Owner's pricing → (12) Completion and acceptance → (13) Warranty.

(III) Supply and demand of major materials:

Except otherwise provided to the supplied by the owner, the materials are purchased by the Corporation. Most materials are available domestically, while special materials must be ordered from abroad.

(IV) Disclosure of major customers' information:

Customers with 10% of more of the total procurement/distribution, amount and percentage in any given year within the most recent two years and their reasons for change.

1. Suppliers whose supplied materials have accounted for more than 10% of annual net purchase during any of the most recent two years: None.

2. Customers whose order volumes have accounted for more than 10% of annual net sales during any of the most recent two years:

Major customers in the past two years

Unit: NTD 1,000

2021				
Description	Name	Amount	Percentage in total net sales (%)	Relationship with the Corporation
1	Department of Rapid Transit Systems, New Taipei City	2,116,325	26	N/A
2	Department of Urban Development, Taipei City Government	1,370,409	17	N/A
3	Mass Rapid Transit Bureau, Kaohsiung City Government	963,134	12	N/A
4	Directorate General of Highways, MOTC	935,822	12	N/A
5	Kaohsiung Export Processing Zone, EZPA, MOEA	913,483	11	N/A
6	Others (Note 1)	1,743,620	22	N/A
	Net sales	8,042,793	100	

Unit: NTD 1,000

2022				
Description	Name	Amount	Percentage in total net sales (%)	Relationship with the Corporation
1	Directorate General of Highways, MOTC	2,565,951	37	N/A
2	Department of Rapid Transit Systems, New Taipei City	1,554,369	23	N/A
3	Department of Urban Development, Taipei City Government	871,490	13	N/A
4	Others (Note 1)	1,863,736	27	N/A
	Net sales	6,855,546	100	

Unit: NTD 1,000

As of last quarter of 2023 (Note 2)				
Description	Name	Amount	Percentage in total net sales (%)	Relationship with the Corporation
1	Directorate General of Highways, MOTC	947,745	48	N/A
2	Department of Rapid Transit Systems, New Taipei City	315,544	16	N/A
3	Department of Urban Development, Taipei City Government	299,731	15	N/A
4	National Housing and Urban Regeneration Center	196,803	10	N/A
5	Others (Note 1)	203,505	11	N/A
	Net sales	1,963,328	100	

Note: Other single customers' order volume did not exceed 10% of net sales.

Note 2: If, before the date of publication of the annual report of listed company, there is any financial data for the most recent period audited and attested or reviewed by a CPA, it shall also be disclosed therewith.

(V) Production volume and value in the most recent 2 years

Unit: NTD 1,000

Production Volume/Value Major Product (or department)	Year	2021			2022		
		Production capacity	Production volume	Production value	Production capacity	Production volume	Production value
Civil engineering		---	14	5,428,399	---	12	5,550,674
Construction		---	13	2,414,474	---	11	1,899,965
Others		---	1	911	---	1	370
Total		---		7,843,784	---		7,451,009

Note 1: Capability refers to production quantity in normal operation with the current production equipment after measuring necessary down time and holidays.

Note 2: Substitutable production capacity may be included in the production capacity and be stated in the note.

(VI) Sales quantity and value in the past 2 years

Unit: NTD 1,000

Sales volume/value Major Product (or department)	Year	2021				2022			
		Domestic Sales		Overseas Sales		Domestic Sales		Overseas Sales	
		Volume	Value	Volume	Value	Volume	Value	Volume	Value
Civil engineering		11	5,406,937	—	—	12	4,808,233	—	—
Construction		9	2,624,895	—	—	11	2,044,433	—	—
Others		1	10,961	—	—	1	2,880	—	—
Total			8,042,793				6,855,546		

III. Employees

(I) Number of employees for the two most recent fiscal years, and during the current fiscal year up to the date of publication of the annual report, their average years of service, average age, and education levels

Number of employees for the two most recent fiscal years up to the date of publication of the annual report

March 31, 2023

Year		2021	2022	As of March 31, 2023 (Note)
Number of employees	Head Office	67	70	72
	Construction offices	343	336	342
	Term contract	152	155	144
	Total	562	561	558
Average age		46.9	46.6	46.7
Average year of services		10.5	10	10.3
Distribution of education backgrounds of official employees	Ph.D	1	2	2
	Master	26	42	40
	Bachelor's degree	350	332	342
	Senior high	30	27	27
	Below Senior High School	3	3	3

Note: Please specify the information for the current year available until the date of the publication of the annual report.

(II) Employee education and training:

(1) The Corporation has formulated rules governing education and training management:

1. Purpose

1.1 Enterprises and employees influence one another. Since the Corporation must adapt to the changes in the environment, and to do that, strong cooperation and loyalty from within and the ability of its members are key. Therefore, in order to achieve sustainable operations, the Corporation must enhance the abilities of their employees. Improvement of personnel's ability must rely on education and training.

1.2 The implementation of education and training can improve employees' knowledge and skills, provide employees with the correct work ethics, establish a good work attitude, improve the quality of employees, accumulate technologies, cultivate talents, work on skill deficiencies, facilitate smooth communication, and promote cooperation.

1.3 The indirect goal is to facilitate development of the Corporation, and the direct goal is to improve the living standards of our employees,

guide the development of a good personality, cultivate talents, improve efficiency, increase employees' knowledge, and improve their skills.

2. Scope: The Corporation's permanent employees.

3. Definitions:

3.1 Professional courses: refer to the training related to the functions of the departments (office) set up by each department (office) or the professional training courses given to certain positions. Employees need to register according to the nature of their jobs.

3.2 General courses: refers to training courses that can be attended by all employees, including management courses and enlightening courses.

3.3 Team leaders for education and training: a person shall be designated by each department (office) or construction site to be responsible for training-related affairs of that unit.

3.4 Expenses for education and training: expenses that incurred due to the education and training, including registration fees, lecturer fees, transportation expenses, travel expenses, and meal expenses.

4. Job Description:

4.1 Prepare annual education and training plan:

4.1.1 The supervisors of each unit shall review the performance of each employee based on the interview record during the appraisal and propose training needs.

4.1.2 The supervisor of each unit reviews shall review the workforce of the previous year and considers whether the current employees meet the requirements of the contract, the license requirements of the law and regulations and the training budget, and compiles the [unit's annual education and training plan].

4.1.3 The management department compiles the [unit annual education and training plan] from each department (office) or construction site into the [annual internal education and training plan] and submits it to the chairman for approval before implementation.

5. Methods of training

5.1 Internal training:

5.1.1 All units handle various education and trainings in accordance with the [annual internal education and training course schedule] announced by the management department.

5.1.2 Employees who wishes to participate in the courses shall register with the team leaders for education and training, and the registration form for each course must be approved by supervisor of that unit.

5.1.3 The team leaders for education and training shall ask the employee to fill out the [training feedback and evaluation form], after the employee completes the training, and compile the forms to fill out [education and training effectiveness evaluation form]. The course

handouts and attendance report document shall be returned to the management department for keeping records.

5.1.4 The lecturer fee for internal lecturers from the Corporation is NT\$500 per hour.

5.2 External training:

5.2.1 Employees that wishes to attend external training must first fill out the [employee external training application form]. After being approved by supervisor of that unit, the form shall then be submitted to the management department for processing. After being approved by the chairman approves, the unit and the management department will notify the employee to attend the external training and return the external training application form for reimbursement purposes.

5.2.2 The employee must submit the [training feedback and evaluation form] within one week after completing the training, and submit the form to the management department for registration. If the training course is for obtaining a license, a copy of the license must be submitted to the management department.

5.3 Education and training fees

5.3.1 The education and training expenses for each unit must be reported in advance and written off in accordance with the relevant procedures of the Corporation.

5.3.2 After the completion of the training, the expenses of all units shall be compiled by the administrative division and report submitted to the management department for approval, and then the management department shall send it to the finance department for accounting.

(2) The education and training expenses for the 2022 was NT\$1,284,000, and the education and the training expenses as of March 31, 2023 was NT\$175,000.

(III) Licenses acquired by personnel related to financial information transparency:

Name	Division	Title	Name of license
Chen Po-Chung	Finance Department	Chief Finance Officer	Certificate of Financial and Accounting Supervisor

(IV) Ethical guidelines for employees' conducts

In order to establish a management system and improve organizational functions, the Corporation formulated rules in accordance with relevant laws and regulations and the characteristics of its business. All employees of the Corporation shall abide by such rules. The employees referred to in the rules shall mean employees from the general manager that are officially hired by the Corporation and personnel with regular contracts. If the special rules provide otherwise, it shall be implemented accordingly. Unless otherwise provided by relevant law and regulations, service, employment, work, vacation, leave, salary, overtime, discipline, rewards and punishments, termination of employment, resignation, retirement, compensation for occupational accidents, benefits, performance appraisal, safety and health, etc. of employees of the Corporation shall be governed by the rules. Where a commission or other contractual relationships exists, the rules shall be followed in addition to such contracts.

IV. Environmental protection expenditure

(I) Damage from polluting the environment for the most recent 2 years

Unit: NT\$

Type of pollution	2021		2022	
	Air, noise and water pollution and waste		Air, noise and water pollution and waste	
Agency of disposition (Environmental Protection Bureau)	Taipei City	New Taipei City	Taipei City	New Taipei City
Compensation and disposition	117,000	154,600	3,600	306,600

(II) Countermeasure (targeting the pollution types occurring in these two years)

1. Propose improvement measures

◎ Air pollution control:

(1) During the construction project period, construction project owners shall use one of the following control facilities to effectively suppress dust on vehicle routes within the construction site:

- Steel plates.
- Concrete.
- Asphalt concrete.
- Coarse grade mixture or other granular materials with equivalent functions.

The control facilities in the foregoing paragraph need to cover more than 50 percent of the vehicle route surface area. For Type 1 construction projects, control facilities must cover 80% or more of the vehicle route surface area.

Vehicle routes from carwash facilities to major roads shall comply

with the regulations of Paragraph 1.

- (2) When transport vehicles and machinery that transport construction materials exit the construction site, control facilities that tightly cover the transported materials with dustproof fabric or other non-breathable covers shall be used to prevent fugitive dust emissions or materials from falling to the ground and polluting the environment.
- (3) Carwash facilities are set up at the entrances and exits of the construction site. When vehicles leave the construction site, the vehicle body and tires shall be effectively washed so that no sludge sticks to their surface before being allowed to leave the site.
- (4) Control facilities shall be used to effectively suppress dust on exposed areas within the construction site, such as covering with dust-control fabric or a dust-control mesh, regular water spraying measures, planting of vegetation and paving with steel plates, concrete, etc.
- (5) The inside and outside of the construction site and the surrounding roads shall be regularly and irregularly cleaned, sprayed water and washed.
- (6) Set up appropriate fencing. If a sidewalk is beside the fence, pedestrian path must be set up and greenery must be planted.

◎ Waste disposal:

- (1) The materials on the construction site must be neat stacked, and not obstruct personnel passages. The materials shall be covered by a canvass when necessary. No garbage shall be disposed in incorrect places.
- (2) The excavated earthwork from the construction site shall be transported to the approved locations.
- (3) General waste/general industrial waste on the construction site should be entrusted to a qualified vendor for removal and disposal.
- (4) The storage or disposal of hazardous materials on the construction site shall be handled in accordance with relevant laws and regulations.
- (5) If the waste products generated on the construction site, including waste soil, etc., was placed outside of the construction site, personnel shall be dispatched immediately to clean up and transport the waste product.
- (6) No advertisement on the fence surrounding the construction site.

◎ Noise prevention:

- (1) Equipment maintenance
Regular testing and maintenance of construction equipment and machinery.
- (2) Allocation of machinery
When setting up construction equipment and machinery, the equipment and machinery shall be kept at a proper distance from the neighboring residents

- to avoid the noise interruptions caused by operation.
- (3) Enclosure:
Sound insulation covers can be used on the exterior of the construction equipment and motors to isolate the noise.
 - (4) Adoption of equipment
Equipment that only emits little noises shall be used for construction to uphold the quality of the environment for neighboring residents; soft padding materials shall be used on equipment that vibrates; noise canceling devices shall be installed at the exhaust of the mechanical equipment.
 - (5) Limitation on working hours:
Construction schedule shall consider the daily routines of the neighborhood, and night construction should be avoided as much as possible; adjust construction schedule to avoid idling running equipment and machinery or using multiple equipment and machinery at the same time.
 - (6) Management of subcontractors:
Formulate internal operation management rules, and set up management announcement boards should be set up; request proper environment management through provisions of contracts and on-site reminders.
 - (7) Operating procedures management:
Reduce unnecessary collisions between machinery and metal objects and reduce the noise generated; maintain even road surfaces on the construction during construction to reduce the noise made by moving vehicles and machinery.
 - (8) Neighborliness:
During construction periods that would generate a lot of noises, warn and communicate with neighboring residents, so they are psychologically prepared and have a chance to adjust their daily routines in advance to reduce the impact of noise.

2. Expected environmental capital expenditure for the future triennium

Unit: NTD 1,000

Year Description	2023	2024	2025
Expense for purchasing pollution prevention equipment, etc.	Purchase machinery and equipment that emits little pollution and noise, and set up air pollution prevention equipment (for example, sprinkler)	Purchase machinery and equipment that emits little pollution and noise, and set up air pollution prevention equipment (for example, sprinkler)	Purchase machinery and equipment that emits little pollution and noise, and set up air pollution prevention equipment (for example, sprinkler)
Estimated improvement	Reduce environmental pollution Reduce environment-related fines	Reduce environmental pollution Reduce environment-related fines	Reduce environmental pollution Reduce environment-related fines
Amount	\$ 25,000	\$ 25,000	\$ 25,000

3. Impact after improvement.

In order to thoroughly improve the environmental problems caused by constructions, the Corporation not only takes prevention measures that are immediate and effective, but also strengthen supervision and cultivate environmental pollution prevention experts to jointly uphold environmental protection, gain a good reputation, and enhance competitiveness.

V. Labor relations

(I) Current material labor related agreements and implementation

1. Employee benefits

A harmonious relationship between the workforce and management is an important foundation for the sound development of the Corporation. Therefore, all companies are committed to the pursuit of such harmonious relationship. The Corporation focuses on employee welfare, adopt a humanized management approach, and promote the following to further facilitate a harmonious between the workforce and management in response to major changes in the industrial environment:

(1) Enhance the functionalities of the employee welfare committee.

The Corporation's employee welfare committee has four branches: Taipei HQ branch, northern region branch, central region branch, and southern region branch; the employee welfare committee handles employees' domestic and overseas trip, assist with the establishment and operation of employee clubs, and award and sponsor the children of outstanding employees, provide monetary blessings for festivals, weddings and funerals. Furthermore, the committee is working towards long-term goals such as setting up loan

mechanism to help facilitate housing construction and purchases, employee welfare stores, provide career planning, and education for the workforce.

(2) Strengthen employee training.

Through education and training to convey the Corporation's business philosophies, enhance employees' professional skills and cultivate their ability to perform tasks in the future, as well as facilitate communications of opinions between the workforce and management, improve internal processes and efficiency, and encourage the will to succeed and loyalty to the Corporation.

2. Pension Reserve:

In accordance with the law, the Corporation sets aside 6% to them monthly salary to the personal pension account at the Bureau of Labor for employees who started after July 2005 as well as employees who opted to use the new Labor Pension Act. For employees to whom the old system applied as well as existing employees who opted to keep the old system, their years of service were retained and calculated in accordance with the former pension rules for pension reserve fund to be set aside.

3. Labor-management negotiation status

(1) Labor union organization: None.

(2) Holidays and overtimes shall comply with the Labor Standards Act.

(3) Labor insurance is based on actual insured salary with the Bureau of Labor Insurance, MOL, and the NHI is provided.

(4) The salary level is comparable to industry levels.

(5) Monetary blessings or gifts for Labor Day, Dragon Boat Festival and Mid-Autumn Festival, end-of-the-year bonuses and performance bonuses.

(6) Leisure activities: a. ball games b. television c. books and magazines d. trips e. end-of-the-year bonuses, annual dinners and lottery.

(7) Scholarships for employees' children.

(8) Employees' insurance against accidents and medical insurance (except labor insurance and NHI).

(9) Monetary blessings for wedding and funeral.

(10) Outstanding employees may seek further education at various universities and academic institutions at home or abroad at the expense of the Corporation.

(II) Total losses arising from employment relations disputes for the most recent fiscal year up to the publication date of the annual report: None.

(III) Estimation of the current and future amount: Relations

between the Corporation management and the workforce have always been amicable, there is no sign that indicates labor disputes may occur at present or in the future.

VI. Cyber security management

- (I) Describe the cyber security risk management framework, cyber security policies, concrete management programs, and investments in resources for cyber security management:
1. The company has not yet established an information security committee and its organization, and at present, the director of the information unit is also responsible for information security-related matters.
 2. Information Security Policy:
 - (1) Establish inventory of information assets and personal data. Risk management based on information security and personal data risk assessment. Implement various control measures.
 - (2) Conduct information security and personal data protection education training and publicity work from time to time.
 - (3) Outsourced manufacturers need to sign a non-disclosure agreement ensure that those who use the company's information services or perform related information services have the responsibility and obligation to protect the company's information assets obtained or used by them, and unauthorized access, modification, destruction or improper disclosure.
 - (4) Important information systems or equipment have established appropriate backup, backup or monitoring mechanisms and are regularly rehearsed to maintain their availability.
 - (5) Antivirus software is installed on all personal computers and the virus pattern is updated regularly, and the use of unauthorized software is prohibited.
 - (6) It is required that employee accounts, passwords and permissions should be properly kept and used.
 - (7) Regular internal audits are carried out every year to ensure the effectiveness of the information security and personal information protection management system.
 3. Implementing principles and investing resources in security management. To ensure the continuity of information security, information security management operations should follow the cycle mode of planning, execution, inspection, and continuous improvement, while also taking into account laws and regulations, technological evolution, and existing environmental resources to make appropriate and security-compliant additions and reviews.
- (II) In the most recent year and as of the publication date of the annual report, if the losses, possible impacts and countermeasures of major information security incidents cannot be reasonably estimated, specify the facts that cannot be reasonably estimated: None.

VII. Important Contracts

Nature of contract	Parties to the contract	Contract term	Major contents	Restrictions
Construction contract	1st Engineering Office, Department of Rapid Transit Systems, Taipei City Government - C287	2014.12.02-2024.06.02	Civil engineering Construction of Wanda-Zhonghe-Shulin Line (first phase) LG06 Station	N/A
Construction contract	Department of Rapid Transit Systems, New Taipei City - C292	2016.04.06-2023.12.16	Turnkey Project of Ankeng light rail transit - civil engineering	N/A
Construction contract	Railway Bureau, MOTC - C295	2018.01.10-2026.03.29	Underground project of the Linsen Station of the C213 Section	N/A
Construction contract	Department of Urban Development, Taipei City Government - A143	2018.05.05-2023.10.27	Turkey public housing project in A and B block bases in Liuzhangli District of Xinyi District	N/A
Construction contract	Mass Rapid Transit Bureau, Kaohsiung City Government - C296	2018.10.22-2024.01.07	Turnkey Project of Kaohsiung MRT system extension from Gangshan and Luzhu (first phase) - civil engineering	N/A
Construction contract	Department of Urban Development, Taipei City Government - A146	2019.05.06-2023.08.28	Construction of foundation A for Xinglong National Housing, Taipei City phase 2	N/A
Construction contract	Department of Urban Development, Taipei City Government - A147	2019.05.06-2023.08.27	Construction of foundation E for Xinglong National Housing, Taipei City phase 2	N/A
Construction contract	Department of Urban Development, Taipei City Government - A148	2020.05.01-2025.03.30	Construction of Section I for Xinglong National Housing in Wenshan District, Taipei City	N/A
Construction contract	Directorate General of Highways, MOTC - C298	2020.11.30-2023.08.01	The construction of East-West bound Provincial Highway 76 (3K+700~11K+585) from Wenjin Village to Xizhuang Road (including agency contract for Taipower 161KV cable contract)	N/A
Construction contract	National Housing and Urban Regeneration Center - A149	2020.09.22-2025.03.02	Sanchong Fugui Section and Wugu Wang Section Social Housing turnkey construction project in New Taipei City	N/A
Construction contract	Directorate General of Highways, MOTC - C300	2021.07.01-2025.07.12	The construction of East-West bound Provincial Highway 76 (11k+585~16k+607) from Xizhuang to Xihu Road	N/A
Construction contract	National Housing and Urban Regeneration Center - A150	2021.05.28-2025.04.13	Kaohsiung City Sanmin District Xindu Section Social Housing turnkey construction project	N/A
Construction contract	National Housing and Urban Regeneration Center - A151	2021.12.22-2026.12.10	Kaohsiung City Nanzhi District "Qingfeng Anju" Social Housing turnkey construction project	N/A
Construction contract	The National Taiwan Normal University - A152	2022.04.13-2026.05.31	Chinese Language International School turnkey construction project	N/A
Engineering contract	National Housing and Urban Regeneration Center - A153	2022.08.25-2027.10.04	New turnkey construction project for social housing at Ren'ai Road-Wenhua Road intersection at New Taipei City Linkou District.	N/A
Engineering contract	Directorate General of Highways, Ministry of Transportation and Communications - C301	2022.10.15-2026.08.09	New construction project for East-West Expressway Provincial Highway 76 (16K+607~20K+890) Xihu - Wa Yao Section	N/A
Engineering contract	British firm Bechtel Limited Taiwan Branch - C302	2022.11.16-2024.05.08	CPC Corporation construction turnkey project of LNG storage tanks for the Taichung Phase III - civil engineering	N/A

Chapter 6 Financial Information

I. Condensed balance sheets and statements of comprehensive income for the past five fiscal years:

(I) Condensed balance sheets and statements of comprehensive income

	Aggregate total asset turnover rate (Number of time)	0.82	0.87	0.93	1.30	1.09
Profitability	Asset return ratio (%)	1.22	0.87	(10.14)	2.25	(12.05)
	Equity return ratio (%)	2.86	1.38	(33.66)	6.08	(46.24)
	Ratio of Income before tax to paid-in capital (%) (Note 7)	3.50	1.47	(30.20)	5.21	(34.08)
	Net profitability (%)	0.89	0.46	(11.17)	1.46	(11.28)
	Earnings per share (EPS)(NT\$)	0.30	0.15	(3.11)	0.52	(3.42)
Cash flow	Cash flow ratio (%)	(13.18)	5.34	(7.32)	(15.89)	(0.58)
	Cash flow adequacy ratio (%)	44.87	32.40	(433.08)	(1,230.95)	(4,963.09)
	Cash reinvestment ratio (%)	(37.06)	11.80	(19.40)	(39.62)	(3.18)
Leverage	Operating leverage	(2.40)	(3.80)	0.83	3.17	0.80
	Financial leverage	0.44	0.39	0.98	1.81	0.97

During the past 2 years, financial ratios that reaches 20% are explained as follows:

1. Interest coverage multiplicity, Asset return ratio, Equity return ratio, Net income before income taxes to paid-in capital, Net profitability, Earnings per share, and Operating leverage increased due to annual losses.
2. The receivables turnover rate and average cash collection days are due to changes in accounts receivable.
3. The cash flow ratio due to improvement in net cash outflow from operating activities.

Note 1: The above financial information has been audited or verified by CPAs.

Note 2: If, before the date of publication of the annual report of a listed company, there is any financial data for the most recent period audited and attested or reviewed by a CPA, it shall also be disclosed therewith.

Note 3: Calculation formula:

1. Financial structure

(1) Liabilities to assets ratio = Total liabilities / Aggregate total of assets.

(2) Long-term working capital to real estate, plants and equipment ratio =

(Aggregate total of equity + Non-current liabilities) / Net real estate, plants and equipment.

2. Solvency

(1) Current ratio = Current assets / Current liabilities.

(2) Quick ratio = (Current assets – Inventory – Expenses paid in advance) / Current liabilities.

(3) Interest coverage multiplicity = Net profit before income tax, interest and expenses / Interest expenditures this term.

3. Manageability

(1) Accounts receivable (including notes receivables from operating activities and accounts receivable) turnover rate = Net sales / Average balance of accounts receivable (including notes receivables from operating activities and accounts receivable) in various terms.

(2) Average cash collection days = 365 / Accounts receivable turnover rate.

(3) Inventory turnover rate = Sales costs / Average amount of inventory.

(4) Accounts payable (including notes payable from operating activities and accounts payable) turnover rate = Sales costs / Average balance of accounts payable (including notes payable from operating activities and accounts payable) of various terms.

(5) Average days required for sales = 365 / Inventory turnover rate.

(6) Total fixed assets turnover rate = net sales / net total fixed assets.

(7) Aggregate total asset turnover rate = Net sales / Average aggregate total of assets.

4. Profitability

(1) Asset return ratio = [Profit and/or loss after tax + Interest expenses (1 – Tax rate)] / Average aggregate total of assets.

(2) Equity return ratio = Profit and/or loss after tax / Average aggregate total of equity.

(3) Net profitability = Profit and/or loss after tax / Net sales.

(4) Earnings per share (EPS) = (Profit and/or loss belonging to parent company proprietor – Preferred shares dividend) / Weighted average number of outstanding shares. (Note 4)

5. Cash flow

(1) Cash flow ratio = Cash flow in operating activities / Current liabilities.

(2) Net cash flow adequacy ratio = Cash flow in operating activities over the past five years / (Capital expenditure + Amount of inventory increase + Cash dividend) over the past five years.

(3) Cash reinvestment ratio = (Cash flow in operating activities – Cash dividend) / (Gross property, plant, and equipment + Long-term investment + Other assets + operating fund). (Note 5)

6. Leverage:

(1) Operating leverage = (Net operating revenue - Variable operating costs and expenses) / Operating income (Note 6).

(2) Financial leverage = Operating income / (Operating income - Interest expenses).

Note 4: Special attention shall be paid to the following matters when using the calculation formula of earning per share above:

1. Shares outstanding are based on weighted average shares, and not based on year end shares

outstanding.

2. Cash offerings or treasury stock transactions are considered in calculating weighted average shares.
3. Earnings appropriation or reserves to paid in capital shall be calculated and adjusted accordingly.
4. If preferred shares are cumulative non-convertible preferred shares, dividends shall be subtracted (regardless of whether they are paid out in dividends), from after tax net profit. If preferred shares are non-cumulative, in the event of net profits, preferred shares shall be subtracted after tax, but no adjustments needed if there are losses.

Note 5: Special attention should be paid to the following when measuring cash flow analysis:

1. Cash flows from operating activities refers to operating cash flows.
2. Capital expenditures are from the annual cash flow statements on capital expenditure outflows.
3. Inventory increases are from period end balance greater than period beginning balances, if inventories are less, then zero is applied.
4. Cash dividends includes common stock and preferred shares dividends.
5. Net property, plant, and equipment refers to the gross property, plant, and equipment minus accumulated depreciation.

Note 6: The issuer shall classify the operating costs and operating expenses as fixed or variable as per their nature. If it involves estimation or subjective judgment, they are classified based on rationality and consistency.

Note 7: Where Corporation shares have no par value or where the par value per share is not NTD 10, any calculations that involve paid-in capital and its ratio shall be replaced with the equity ratio belonging to the owner of the parent Corporation of the asset balance sheet.

III. Supervisors' or Audit Committee's Review Report for the most recent fiscal year's financial statement

New Asia Construction & Development Corp.

Audit Committee's Report

The board of directors has prepared the Corporation's stand-alone and consolidated financial statements for 2022, which were audited by certified public accountants of KPMG, Chung-Che Chen and Shu-Ying Chang. The aforementioned financial statements, along with the business report and Deficit Appropriation Statement, etc. have been reviewed and determined to be correct by the audit committee. We hereby submit this report in accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act.

Independent Auditor's Report

New Asia Construction and Development Corp. intends to switch from adoption of cost model to the fair value model for the subsequent measurement of investment property starting from the fourth quarter in 2022. In accordance with Article 6 of Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as the "Preparations Regulations", we have conducted our audit on the reasons that the new accounting policy can provide reliable and more relevant information, the impacted items and actual number of impacted items for the previous year, the actual impact on the retained earnings at the beginning of the previous year, and the rationality and necessity of changing the accounting policy after the beginning date of the fiscal year. The explanations are as follows:

- I. Originally, New Asia Construction and Development Co., Ltd. adopted the cost model for treatment of subsequent measurement of investment property in accordance with the pre-amended preparation standards. The depreciation expense was calculated with the depreciable amount after the original recognition, and its depreciation method, useful life and residual value were compared with the property, plant and equipment regulations.
- II. The Financial Supervisory Commission amended the preparation standards on December 30, 2013, to allow enterprises to choose to adopt the fair value model for investment property. New Asia Construction and Development Corp therefore adopted a resolution of the board of directors on December 29, 2022, to more reasonably reflect the value and performance of investment property. Starting from the fourth quarter of 2022, the subsequent measurement of investment property has been changed from the cost model to the fair value model.
- III. According to International Accounting Standards No. 8 Accounting Policies, Changes in Accounting Estimates and Errors, this accounting policy should be retroactively applied. After obtaining the investment property appraisal report issued by HWAN YU Real Estate Appraisal Co. Ltd., the fair value of the investment property of New Asia Construction and Development Corp in the consolidated financial reports as of January 1, 2021, and December 31, 2021, was NT\$734,297 thousand and NT\$746,253 thousand respectively. Accordingly, this accounting change is expected to increase the retained earnings of the consolidated financial report as of January 1, 2021, by NT\$153,274 thousand, as well as NT\$217,683 thousand in investment property and NT\$64,409 thousand in deferred tax liabilities, respectively. The transfer of NT\$4,096 thousand from property, plant and equipment to investment real estate as of 30 June

2021, resulted in an increase of NT\$1,891 thousand in other comprehensive income and an increase of NT\$1,066 thousand in deferred tax liabilities. Depreciation expense decreased by NT\$3,206 thousand, fair value adjustment gain increased by NT\$7,860 and income tax expense decreased by NT\$771 thousand for 2021, resulting in an increase of NT\$7,860 thousand in investment real estate, a decrease of \$771 thousand in deferred tax liabilities and an increase of \$11,837 thousand in net profit for the period.

In summary, as of December 31, 2021, the increase in shareholders' equity arising from the adoption of the fair value model of New Asia Construction and Development Corp. totaled NT\$167,002 thousand, of which the increase in retained earnings amounted to NT\$165,111 thousand and other equity increased by NT\$1,891 thousand.

IV. In accordance with Taiwan Standards on Auditing 20, Articles 10 to 13 of Using the Work of an Auditor's Expert, we have performed the necessary valuation procedures for the fair value valuation expert report of the above-mentioned investment property, and no material abnormalities were found.

In summary, we did not find it unreasonable for New Asia Construction and Development Corp. to change the subsequent measurement of investment property from the cost model to the fair value model.

Independent Auditors' Report

To the Board of Directors of NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.:

Opinion

We have audited the financial statements of NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. (“the Company”), which comprise the balance sheets as of December 31, 2022 and 2021, the statements of comprehensive income, changes in equity and cash flows for the years then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Account of Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Emphasis of Matter

As stated in Notes 4(j) and 4(u) to the financial statements, the Company changed the subsequent measurement of investment property from the cost model to the fair value model effective from the fourth quarter of 2022, and retroactively restated the financial statements for 2021. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Revenue recognition

For the revenue recognition account policy, please refer to Note 4(p); for the evaluation of revenue recognition during the years, please refer to Note 6(t).

Description of key audit matter:

The main business operation is construction. The Company recognizes the revenue of contracts under construction according to the level of commitment, due to the total contract price of the contracted project and the accounting treatment of the construction contract involves judgement of the management. Therefore, the test of revenue recognition is considered as the key audit matters.

Corresponding audit procedure:

Our main audit procedures for the above key audit matter include: evaluating the design, operation and implement of the effectiveness of internal control on revenue recognition; understanding the specific terms and risks of material contracts by examining them and interviewing the management. Review the list of additions and subtractions to the total contract price of each project, and check the external documents such as the contract agreement, the owner's letter or the minutes of the coordination meeting with the owner; To make sure the construction price accuracy, we examine the price certificated to owners and verify the related valuation document. Calculating the percentage of completion of the construction; evaluating the foundation of the managements' estimation through reviewing the external document such as the record of dealings with customers. We evaluate the revenue recognition of the completed constructions and consider whether it was already disclosed appropriately.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the invested company adopting the equity method to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chung-Che Chen and Shu-Ying Chang.

(English Translation of Financial Statements Originally Issued in Chinese)
NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

For the years ended December 31, 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. (the “Company”) was established on December 4, 1967, with the approval of the Ministry of Economic Affairs, and its registered address is 15F, 16F., NO.760, SEC. 4, Bade RD, Songshan Dist, Taipei, Taiwan. The main business items of the Company are construction of heavy equipment needed civil engineering, development business related to land and community, construction, leasing or selling of public housing and office building, repairment, leasing and selling of heavy equipment, manufacturing and selling of ready mixed concrete and asphalt concrete.

(2) Approval date and procedures of the financial statements:

The accompanying financial statements were authorized for issue by the Board of Directors on March 9, 2023.

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Company has initially adopted the following new amendments, which do not have a significant impact on its financial statements, from January 1, 2022:

- Amendments to IAS 16 “Property, Plant and Equipment—Proceeds before Intended Use”
- Amendments to IAS 37 “Onerous Contracts—Cost of Fulfilling a Contract”
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 “Reference to the Conceptual Framework”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Company assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its financial statements:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Company does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”
- Amendments to IAS 1 “Non-current Liabilities with Covenants”
- Amendments to IFRS 17 “Initial Application of IFRS 17 and IFRS 9 – Comparative Information “
- IFRS16 “Requirements for Sale and Leaseback Transactions”

(4) Summary of significant accounting policies:

The significant accounting policies presented in the financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the financial statements.

- (a) Statement of compliance

The financial statements are prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

- (b) Basis of preparation

- (i) Basis of measurement

Except for the following significant accounts, the financial statements have been prepared on the historical cost basis:

- 1) Financial instruments measured at fair value through profit or loss are measured at fair value;
- 2) Financial assets at fair value through other comprehensive income are measured at fair value;
- 3) Investment property, measured at fair value; and
- 4) The defined benefit liabilities are measured at fair value of the plan assets less the present value of defined benefit obligation, limited as explained in Note 4(q).

- (ii) Functional and presentation currency

The functional currency of each Company entities is determined based on the primary economic environment in which the entities operate. The Company’s financial statements are presented in New Taiwan Dollar (NTD), which is the Company’s functional currency. All the financial information presented in NTD has been rounded to the nearest thousands.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

(c) Foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Company entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- 1) An investment in equity securities designated as at fair value through other comprehensive income;
- 2) A financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- 3) Qualifying cash flow hedges to the extent that the hedge is effective.

(ii) Foreign operation

The assets and liabilities of foreign operations are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Company disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Company disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, foreign exchange gains and losses arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

(d) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(e) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(f) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

(i) Financial assets

All regular way purchases or sales of financial assets are derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Company's right to receive payment is established.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, leases receivable, guarantee deposit paid and other financial assets), and contract assets.

The Company measures loss allowances at an amount equal to lifetime expected credit loss (ECL), except for the following which are measured as 12-month ECL:

- Bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Company's historical experience and informed credit assessment as well as forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

A breach of contract such as a default or being more than 30 days past due;

The disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. For corporate customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Company are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

3) Derecognition of financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

4) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(g) Investments in associates

Associates are those entities in which the Company has significant influence, but no control, over the financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition, minus any accumulated impairment losses.

The financial statements include the Company's share of the profit or loss and other comprehensive income of those associates, after adjustments to align the accounting policies with those of the Company, from the date on which significant influence commences until the date on which significant influence ceases. The Company recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from the transactions between the Company and an associate are recognized only to the extent of unrelated Company's interests in the associate.

When the Company's share of losses of an associate equals or exceeds its interest in associates, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate.

(h) Subsidiaries

The subsidiaries in which the Company holds controlling interest are accounted for under equity method in the non-consolidated financial statements. Under equity method, the net income, other comprehensive income and equity in the non-consolidated financial statement are the same as those attributable to the owners of parent in the consolidated financial statements.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

The changes in ownership of the subsidiaries are recognised as equity transaction.

(i) Joint Arrangements

A joint arrangement is an arrangement in which two or more parties have joint control. The IFRS classifies joint arrangements into two types — joint operations and joint ventures, which have the following characteristics(a) the participants are bound by a contractual arrangement; and (b) the contractual arrangement gives two or more of those parties joint control of the arrangement. IFRS 11 “Joint Arrangements” defines joint control as the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities (ie activities that significantly affect the returns of the arrangement) require the unanimous consent of the parties sharing control.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement (i.e. joint operator) have rights to the assets and are obligated for the liabilities, relating to the arrangement. The Company accounts for the assets, liabilities, revenues and expenses in relation to its interest in a joint operation in accordance with the IFRSs applicable to the particular assets, liabilities, revenues and expenses.

When assessing the classification of a joint arrangement, the Company considers the structure and legal form of the arrangement, the terms agreed by the parties in the contractual arrangement and, other facts and circumstances.

(j) Investment property

In the fourth quarter of 2022, the company changed the subsequent measurement of investment property from the cost model to the fair value model after evaluation by the company's management. Please refer to Note 4 (u) for details about the changes in accounting policies.

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is initially measured at cost and subsequently at fair value with any change therein recognized in profit or loss.

Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in profit or loss. When investment property that was previously classified as property, plant and equipment is sold, any related amount included in ‘other equity - revaluation surplus’ is transferred to retained earnings.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

(k) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

(1)Buildings	41 ~ 56 years
(2)Machinery and equipment	1 ~ 10 years
(3)Transportation equipment	3 ~ 6 years
(4)Other equipment	3 ~ 10 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(iv) Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is remeasured to fair value and reclassified accordingly. Any gain arising on this remeasurement is recognized in profit or loss to the extent that it reverses a previous impairment loss on the specific property, with any remaining gain recognized in other comprehensive income and presented in 'other equity - revaluation surplus'.

Any loss is recognized in profit or loss. However, to the extent that an amount is included in the revaluation surplus for that property, the loss is recognized in other comprehensive income and reduces the revaluation surplus within equity.

(l) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

(i) As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) fixed payments, including in-substance fixed payments;
- 2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) amounts expected to be payable under a residual value guarantee; and
- 4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- 1) there is a change in future lease payments arising from the change in an index or rate; or
- 2) there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee; or
- 3) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- 4) there is a change of its assessment on whether it will exercise a purchase, extension or termination option; or
- 5) there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Company accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets, including work station, office facilities and company cars. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Company acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Company makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Company applies IFRS15 to allocate the consideration in the contract.

The lessor recognizes a finance lease receivable at an amount equal to its net investment in the lease. Initial direct costs, such as lessors to negotiate and arrange a lease, are included in the measurement of the net investment. The lessor recognizes the interest income over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. The Company recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

(m) Intangible assets

(i) Computer software

The Company acquires and measures computer software at cost, less accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives three or four years of intangible assets from the date that they are available for use.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(n) Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(o) Provisions

(i) Warranties and Legal lawsuits

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and an outflow of economic benefits is possibly required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Warranties provisions are recognized at the year the construction is completed and measured at the related weighted probability according to the historical warranty information and all the possible outcomes.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

(ii) Onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

(p) Revenue from contracts with customers

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. The Company recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Company's main types of revenue are explained below.

1) Construction contracts

The Company enters into contracts to build residential properties, commercial buildings and public constructions. Because its customer controls the asset as it is constructed, the Company recognizes revenue over time on the proportion of the cost certificate and payment to the total contract revenue as of the financial reporting date or milestone progress agreed in the contract. The consideration promised in the contract includes fixed and variable amounts. The customer pays the fixed amount based on a payment schedule. For some variable considerations (for example, any additional changes related to contracts, a penalty payment calculated based on delay days and price adjustment allowance), accumulated experience is used to estimate the amount of variable consideration, using the expected value method. For other variable considerations (for example, completion bonus if a construction is completed by a specified date), the Company estimates the amount of variable consideration using the most likely amount. Considering the progress of a public construction is highly susceptible to factors outside the Company's control and, therefore, completion bonus is usually constrained, the Company recognizes revenue only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. If the Company has recognized revenue, but not issued a bill, then the entitlement to consideration is recognized as a contract asset. The contract asset is transferred to receivables when the entitlement to payment becomes unconditional.

If the Company cannot reasonably measure its progress towards complete satisfaction of the performance obligation of a construction contract, the Company shall recognize revenue only to the extent of the costs expected to be recovered.

A provision for onerous contracts is recognized when the Company expects the unavoidable costs of performing the obligations under a construction contract exceed the economic benefits expected to be received under the contract.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

For residential properties, commercial buildings and public constructions, the Company offers a standard warranty to provide assurance that they comply with agreed-upon specifications and has recognized warranty provisions for this obligation; please refer to Note 6(n).

2) Financial components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(ii) Contract costs

1) Incremental costs of obtaining a contract

The Company recognizes as an asset the incremental costs of obtaining a contract with a customer if the Company expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Company applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

2) Costs to fulfill a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Company recognizes an asset from the costs incurred to fulfill a contract only if those costs meet all of the following criteria:

- a) the costs relate directly to a contract or to an anticipated contract that the Company can specifically identify;
- b) the costs generate or enhance resources of the Company that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- c) the costs are expected to be recovered.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

General and administrative costs, costs of wasted materials, labor or other resources to fulfill the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Company cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations(or partially satisfied performance obligations), the Company recognizes these costs as expenses when incurred.

(q) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Company's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

(r) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

(s) Earnings per share

The Company discloses its basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as convertible bonds and employee compensation.

(t) Operating segments

The related information on the operating segments is disclosed in the consolidated financial statement.

(u) Changes in accounting policies

After evaluation by the company's management, in order to more reasonably reflect the value and performance of investment property, so that the financial statements can provide reliable and more relevant information on the impact of relevant transactions on the company's financial position, financial performance or cash flow, the company changed the subsequent measurement of investment property from the cost model to the fair value model starting from the fourth quarter of 2022

According to International Accounting Standard No. 8 "Accounting Policies, Changes in Accounting Estimates and Errors", this accounting policy should be applied retrospectively. The restated comparative information and the impact of the change in accounting policy on the Company's financial report are described as follows:

<u>January 1, 2021 Balance Sheet</u>	<u>Reported amount before restatement</u>	<u>Effect of changes in accounting policies</u>	<u>Reported amount after restatement</u>
Investment property	\$ 516,614	217,683	734,297
Deferred tax liabilities	15,836	64,408	80,244
Retained earnings	(484,471)	153,275	(331,196)
<u>December 31, 2021 Balance Sheet</u>			
Investment property	\$ 514,546	231,706	746,252
Deferred tax liabilities	16,686	64,704	81,390
Retained earnings	(375,685)	165,112	(210,573)
Other interests-revaluation increment on real estate	-	1,890	1,890

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

December 31, 2021 Statements of Comprehensive Income	Reported amount before restatement	Effect of changes in accounting policies	Reported amount after restatement
Gains from fair value adjustments	\$ -	7,861	7,861
Depreciation expense	3,206	(3,206)	-
Income tax expense	1,345	(770)	575
Revaluation increment on real estate (net of tax)	-	1,890	1,890

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

In preparing the financial statements, management has made judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

The Company is likely to be facing economic uncertainty, such as COVID-19, natural disasters, the Ukraine–Russia conflict and inflation. Those events may have a significant impact in the next financial year on the following accounting estimates, which depend on the future forecasts.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is as follows:

(a) Judgment regarding significant influence of associates

The Company has less than 20% of the voting or potential voting rights of Hefa Land Development Corporation. However, the Company has determined that it has significant influence because it has representation on one-third of Board of Hefa Land Development Corporation, and can participate in its decision of financial and operation policies according to the agreement.

(b) Classification of joint arrangements

Titan Development And Construction., Ltd and Dong Pi Co., Ltd are structured as separate entities, and the collective control exists between the two parties. The Company gave two parties joint control over the rights to the assets and the obligation to the liabilities over the agreement. As the consequence, the Company classified the joint arrangement as joint operation and recognized each assets, liabilities, income and expenses. For more information, please refer to Note 6(g).

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of COVID-19 pandemic:

(a) Recognition and measurement of provisions and contingent liabilities

Provision for warranty is estimated when construction contracted is completed. The estimate has been made based on the historical provision information and all kind of possible outcome. The Company regularly reviews the basis of the estimate and, if necessary, amends it as appropriate. There could be a significant impact on provision for warranty for any change in the basis of the estimate.

Provision for unsettled litigation and claims is recognized when it is probable that it will result in an outflow of the Company's resources and the amount can be reasonably estimated. Since the ultimate resolution of litigation and claims cannot be predicted with certainty, the final outcome or the actual cash outflow may be materially different from the estimated liability.

Refer to Note 6(n) for further description of the key assumptions as to the probability of an outflow of resources and the amount to be recognized.

(b) Recognition of deferred tax assets

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which those deferred tax assets can be utilized. Assessment of the realization of the deferred tax assets requires management's subjective judgment and estimate, including the future revenue growth and profitability, tax holidays, the amount of tax credits that can be utilized and feasible tax planning strategies. Changes in the economic environment, industry trends, and relevant laws and regulations may result in adjustments to the deferred tax assets. Refer to Note 6(q) for further description of the recognition of deferred tax assets.

The Company's accounting policies include measuring financial and non-financial assets and liabilities at fair value through profit or loss. The Company has established a financial instrument valuation group to conduct independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial instrument valuation group also periodically adjusts valuation models, conducts back-testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value.

The Company strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- (a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- (b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- (c) Level 3: inputs for the assets or liability that are not based on observable market data.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

For any transfer within the fair value hierarchy, the impact of the transfer is recognized on the reporting date.

Please refer to notes listed as below for assumptions used in measuring fair value.

- (a) Note 6(j) , Investment property
- (b) Note 6(w), Financial instruments

(6) Explanation of significant accounts:

- (a) Cash and cash equivalents

	December 31, 2022	December 31, 2021 (Restatement)
Cash on hand	\$ 7,640	6,540
Demand deposits	866,828	776,953
Check deposits	87,884	335,715
Cash and cash equivalents	\$ 962,352	1,119,208

Please refer to Note 6(w) for sensitivity analysis and interest rate risk of financial assets and liabilities of the Company.

- (b) Financial assets at fair value through profit or loss

	December 31, 2022	December 31, 2021 (Restatement)
Financial assets at fir value through profit or loss		
Mega Taiwan Financial and Conventional Fund	\$ -	10,240
Mega Singapore Real Estate Income Fund	1,960	-
Total	\$ 1,960	10,240

- (i) For the net gain or loss on fair value of financial instruments at FVTPL, please refer to note 6(w) .
- (ii) For credit risk and market, please refer to Note 6(x).
- (iii) The aforesaid financial assets were not pledged as collateral.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

- (c) Financial assets at fair value through other comprehensive income

	December 31, 2022	December 31, 2021 (Restatement)
Equity investments at fair value through other comprehensive income		
Non-current		
Unlisted common shares	\$ <u>1,727</u>	<u>1,727</u>

- (i) Equity investments at fair value through other comprehensive income

The Company intends to hold the equity investments for long-term strategic purposes, rather than transaction purposes. Therefore, the investments are measured at FVOCI.

- (ii) For market risk, please refer to Note 6(x).

- (iii) The aforesaid financial assets were not pledged as collateral.

- (d) Note and account receivables

	December 31, 2022	December 31, 2021 (Restatement)
Notes receivable from operating activities	\$ 145	101
Accounts receivables–measured as amortized cost	130,618	22,641
Less: Loss allowance	-	-
	\$ <u>130,763</u>	<u>22,742</u>

Please refer to Note 6(t) for more information about the expected recovery of contract assets based on construction contracts and estimated construction progress.

The Company’s account receivables are mostly from the Government or customers who have signed the contracts with. As a consequence, based on the use of lifetime expected loss provision for all receivables, there is no need for the Company to recognize loss allowance from the account receivables that are not overdue.

The aforesaid financial assets were not pledged as collateral.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

(e) Prepayments

	December 31, 2022	December 31, 2021 (Restatement)
Prepayments for construction in progress	\$ 7,189	43,960
Prepayments for materials	-	38
Prepayments for construction all risk insurance	144,853	87,240
Other	<u>14,286</u>	<u>35,122</u>
	<u>\$ 166,328</u>	<u>166,360</u>

(f) Investments accounted for using equity method

The investment of the Company using the equity method on the reporting date is as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Subsidiaries	\$ 338,665	701,294
Associates	<u>40,168</u>	<u>319,695</u>
	<u>\$ 378,833</u>	<u>1,020,989</u>

(i) Subsidiaries

Please refer to the consolidated financial statement for the year ended December 31, 2022.

(ii) Associates

Associates which are material to the Company consisted of the following:

Name of Associate	Nature of Relationship with the Company	Main operating location/ Registered Country of the Company	Proportion of Shareholding and Voting Rights	
			December 31, 2022	December 31, 2021
Hefa Land Development Corporation	The Company's strategic alliance of contracting construction and its main business item are housing and building development	Taiwan	10 %	10 %

The cash return of \$260,000 thousand and \$100,000 thousand, which the Company received from Hefa Land Development Corporation in 2022 and 2021, was rendered as capital reduction through cash returns to shareholders, with the base date set on November 4, 2022 and October 8, 2021. Since the above transaction has significant impact on the Company's financial statements, it was therefore recognized by using the equity method.

The following financial information of significant associates was been adjusted according to individually prepared IFRS financial statements of these associates:

Notes to the Financial Statements

The appraiser reviewed the fair value above and, based on its reasonableness, issued a review opinion. The relevant information is summarized as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021</u>
Accounting firm	EURO-ASIA REAL ESTATE APPRAISERS JOINT FIRM	EURO-ASIA REAL ESTATE APPRAISERS JOINT FIRM
Appraiser name	CHOU,SHIH-YUAN	CHOU,SHIH-YUAN
Opinion	The content is reasonable and appropriate	The content is reasonable and appropriate
Date of Appraiser's review report	March 9, 2023	December 22, 2022

In accordance with Article 34 of the Regulations on Real Estate Appraisal, the procedures of the income approach include estimating the effective gross income and total expenses, computing the net operating income, determining the capitalization rate or discount rate, and computing the income. The attributes used by the Group for the estimations above were the last three years' data from the subject property and comparable properties which have similar characteristics, and these data were assessed and adjusted based on their persistency, stability, and growth to ensure the availability and reasonableness of these data. The movement of income (cash inflows) and expenditure (cash outflows) for future periods was based on the vacancies or losses, existing or future cash flow plans of the Group, and historical cash flows from the subject property, identical properties, or properties in the same industry. The estimation and computation of the net income were based on the highest and best use of the subject property and have taken into consideration the income generated from comparable properties in the same location based on their highest and best use.

The discount rate is determined by the risk premium method, which takes into account factors such as interest rates on bank deposits, interest rates on government bonds, the riskiness of real estate investments, currency fluctuations and trends in real estate prices, and selects the rate of return on the most general property as the basis, adjusting for differences in the individual characteristics of the property and the subject property. The discount rate is based on the two-year postal time deposit rate plus 2.22%, taking into account the income, liquidity, risk, value-added and management difficulties of the subject. The risk premium was added on December 31, 2022 and 2021, to determine the discount rate of the subject, which ranged from 3.1% to 3.7% and 3.7%, respectively. The capitalization of earnings was estimated by dividing the net income of the comparables by the price, and the capitalization rates of 1.28%~1.95% and 1.39%~1.95% were calculated on a weighted average basis.

Current	\$ 39,065	19,427
Non-current	\$ 27,089	18,978

For maturity analysis, please refer to Note 6(w).

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

The amounts recognized in profit or loss were as follows:

	For the years ended December 31	
	2022	2021 (Restatement)
Interest on lease liabilities	\$ 918	722
Expenses relating to short-term leases	\$ 5,748	3,064

The amounts recognized in the statement of cash flows for the Company were as follows:

	For the years ended December 31	
	2022	2021 (Restatement)
Total cash outflow for leases	\$ 52,221	37,296

(i) Real estate leases

As of December 31, 2022, the Company leases land, buildings, for its office space. The leases of office space typically run for a period of 1 to 5 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Part of equipment leases contain extension or cancellation options exercisable by the Company up to one year before the end of the non-cancellable contract period. These leases are negotiated and monitored by local management, and accordingly, contain a wide range of different terms and conditions. The extension options held are exercisable only by the Company and not by the lessors. In which lessor is not reasonably certain to use an optional extended lease term, payments associated with the optional period are not included within lease liabilities.

(ii) Other leases

The Company leases vehicles and equipment, with general lease terms of three years.

Besides, some lease terms shorter than 12 months are short-term items. The Company has elected not to recognize right-of-use assets and lease liabilities for these leases.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

	December 31, 2022	December 31, 2021 (Restatement)
Current	\$ 454,564	17,849
Non-current	1,680	5,306
	\$ 456,244	23,155

- (i) Please refer to Note 6(p) for the short-term employees' paid leave liabilities.
- (ii) Warranties

The provision for warranties is mainly related to construction contracts for the years ended December 31, 2022 and 2021. The provision is based on estimates made from historical warranty data associated with each kind of construction. The Company expects to settle the majority of the liability within one to five years after the construction was completed.

- (iii) Onerous contract

As of December 31, 2022, because the contract cost exceeds the expected contract revenue, each construction recognizes provision in response to the related construction cost, which is presented as follows:

	December 31, 2022	December 31, 2021 (Restatement)
A147	\$ 17,867	-
C287	103,758	-

	\$ 437,107	-

- (o) Operating lease

Please refer to Note 6(k) for details of the investment property leased by the Company under on operating lease. The minimum lease payments receivable in futur during the non-cancellable lease term are as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Within one year	\$ 14,047	19,320
Between one and five years	19,457	32,088
	\$ 33,504	51,408

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

The rental income from investment property for the years ended December 31, 2022 and 2021 are \$18,675 thousand and \$17,972 thousand, respectively. In addition, there were no material maintenance expenses.

(p) Employee benefits

(i) Defined benefit plan

Reconciliation of defined benefit obligations at present value and plan asset at fair value were as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Present value of defined benefit obligations	\$ 82,418	99,780
Fair value of plan assets	(86,759)	(94,532)
Net defined benefit liabilities (asset)	\$ (4,341)	5,248

The Company's employee benefit liabilities were as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Short-term employee's benefits liabilities	\$ 18,984	18,228

The Company makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

1) Composition of plan assets

The Company allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Pension Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Company's Bank of Taiwan labor pension reserve account balance amounted to \$86,759 thousand as of December 31, 2022. For information on the utilization of the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

4) Expenses recognized in profit or loss

The Company's pension expenses recognized in profit or loss for the years ended December 31, 2022 and 2021 are as follows:

	<u>For the years ended December 31</u>	
	<u>2022</u>	<u>2021</u> <u>(Restatement)</u>
Current service costs	\$ 1,362	1,950
Interest expense	616	351
Net interest of net liabilities for defined benefit obligations	<u>(594)</u>	<u>(329)</u>
	<u>\$ 1,384</u>	<u>1,972</u>
Operating Costs	1,173	1,897
Administrative expenses	<u>211</u>	<u>75</u>
	<u>\$ 1,384</u>	<u>1,972</u>

5) Remeasurement of the net defined benefit liabilities recognized in other comprehensive income

The Company's net defined benefit liability recognized in other comprehensive income for the years ended December 31, 2022 and 2021 are as follows:

	<u>For the years ended December 31</u>	
	<u>2022</u>	<u>2021</u> <u>(Restatement)</u>
Cumulative amount at January 1	\$ 16,866	12,615
Recognized during the period	<u>8,446</u>	<u>4,251</u>
Cumulative amount at December 31	<u>\$ 25,312</u>	<u>16,866</u>

6) Actuarial assumptions

The following are the principal actuarial assumptions at the measurement date:

	<u>For the years ended December 31</u>	
	<u>2022</u>	<u>2021</u> <u>(Restatement)</u>
Discount rate	1.20 %	0.65 %
Future salary increase rate	1.00 %	1.00 %

Based on the actuarial report, the Company expected to make a contribution payment of \$2,509 thousand to the defined benefit plans for the one year period after the reporting date of 2022.

The weighted-average duration of the defined benefit plan is 6 years.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

7) Sensitivity Analysis

As of December 31, 2022 and 2021, the changes in the principal actuarial assumptions that will have impact on the present value of the defined benefit obligation are as follows:

	Impact on Present Value of Defined Benefit Obligations	
	Increase by 0.25%	Decrease by 0.25%
December 31, 2022		
Discount rate	(1,227)	1,259
Future salary increase rate	1,260	(1,235)
December 31, 2021		
Discount rate	(1,626)	1,671
Future salary increase rate	1,663	(1,627)

The sensitivity analysis assumed all other variables remain constant during the measurement. This may not be representative of the actual change in defined benefit obligations as some of the variables may be correlated in the actual situation. The model used in the sensitivity analysis is the same as the defined benefit obligation liability.

The analysis is performed based on the same basis for prior year.

(ii) Defined contribution plan

The Company allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of the Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Company allocates a fixed amount to the Bureau of the Labor Insurance without additional legal or constructive obligations.

The Company's pension costs incurred from the contribution to the Bureau of Labor Insurance amounted to \$22,701 thousand and \$22,431 thousand for the years ended December 31, 2022 and 2021, respectively.

(q) Income tax

(i) Tax expense

The Company of income tax for the years ended December 31, 2022 and 2021 are as follows:

	For the years ended December 31	
	2022	2021 (Restatement)
Current income tax expense		
Current period incurred	\$ -	-
Deferred tax expense (income)		
The origination and reversal of temporary differences	1,994	575
Income tax expense	\$ 1,994	575

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

The amount of income tax recognized in other comprehensive income for the years ended December 31, 2022 and 2021 are as follows:

	For the years ended December 31	
	2022	2021 (Restatement)
Items that may not be reclassified subsequently to profit or loss:		
Remeasurements of the defined benefit plans	\$ 1,689	850
Revaluation increment on real estate	<u>8,526</u>	<u>1,066</u>
	<u>\$ 10,215</u>	<u>1,916</u>

Reconciliation of income tax and profit before tax for the years ended December 31, 2022 and 2021 are as follows:

	For the years ended December 31	
	2022	2021 (Restatement)
Profit (loss) before income tax	\$ (771,154)	117,797
Income tax expense at domestic statutory tax rate	(154,231)	23,559
Investment losses accounted for using equity method	6,886	(7,852)
Current-year losses for which no deferred tax asset was recognized	68,743	30,763
Change in unrecognized temporary difference	80,596	(45,686)
Others	<u>-</u>	<u>(209)</u>
Income tax expense	<u>\$ 1,994</u>	<u>575</u>

(ii) Deferred tax assets and liabilities recognized

1) Unrecognized deferred tax assets

	December 31, 2022	December 31, 2021 (Restatement)
Impairment loss of financial assets	\$ 1,048	1,048
Unrealized construction losses	47,263	42,953
The carryforward of unused losses	<u>362,466</u>	<u>294,410</u>
Total	<u>\$ 410,777</u>	<u>338,411</u>

The ROC Income Tax Act allows net losses, as assessed by the tax authorities, to offset taxable income over a period of ten years for local tax reporting purpose. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize the benefits therefrom.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

(r) Capital and other equity

(i) Ordinary shares

As of December 31, 2022 and 2021, the authorized capital of Company consisted of 3,920,000 thousand, with par value of \$10 per share, and the number of issued shares is 226,279 thousands shares. The payment of all issued shares has been collected.

The reconciliation of the outstanding shares for the years ended December 31, 2022 and 2021 were as follows:

	(In thousands of shares)	
	For the years ended December 31	
	2022	2021
December 31 (the same as beginning balance)	<u>226,279</u>	<u>226,279</u>

(ii) Capital surplus

The components of the capital surplus are as follows:

	December 31, 2022	December 31, 2021
Treasury share transactions	<u>\$ 13,156</u>	<u>13,156</u>

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

The Company's Articles of Incorporation stipulate that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes or salary. Of the remaining balance, 10% is to be appropriated as legal reserve, and then any remaining profit, together with any undistributed retained earnings, shall be distributed according to the distribution plan proposed by the Board of Directors to be submitted to the stockholders' meeting for approval.

The Company is in the mature stage of the Construction Industry business circle. To make sure the market competitiveness, the Company still has to consistently invest capital to expand the operation activities and search for the new opportunity of the corporate transformation. The stability and growth of the dividend should be focused when the Board of Directors proposes the distribution plan and determining the appropriate method of stock or cash dividends to be paid according to the current year's operation condition and the capital budget planning. After the above mentioned appropriations, current and prior-period earnings that remain undistributed will be proposed for distribution by the Board of Directors, and a meeting of shareholders will be held to decide on this matter. The cash dividends shall not be below 20% of the total dividends.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

The Company applied the exemptions at the first-time adoption of IFRS, and increased its retained earnings by \$286,775 thousand, which resulted from the fair value of investment property being used as the cost on initial recognitions at the transition date. In accordance with the Financial Supervisory Commission, a special reserve, which amounted to \$180,637 thousand is appropriated from current and prior period earnings. The aforementioned special reserve may be reversed in proportion with the usage, disposal, or reclassification of the related assets, and then, be distributed afterwards. As of December 31, 2022 and 2021, the Company recognized the special reserve related to all IFRSs adjustments amounted to \$169,732 thousand and \$170,785 thousand. When the debit balance of any of the contra accounts in the shareholders' equity is reversed, the related special reserve can be reversed. The subsequent reversals of the contra accounts in shareholders' equity shall qualify for additional distributions.

The Company chose to adopt a fair value model for subsequent measurement of its investment property at fair value. In accordance with the requirements of the FSC, with respect to the amount of the net increase at fair value classified to retained earnings, the Company shall allocate the same amount in special reserve. When the Company distributes its earnings annually, it shall make provision for the special reserve in the following order:

① With respect to the amount of the net increase at fair value arising from the subsequent measurements of investment property at fair value in the current year, an equivalent amount of special reserve shall be allocated from the after-tax net profit in the period, plus items other than the after-tax net profit in the period, that are included in the undistributed current period earnings and the undistributed prior period earnings. An amount of special reserve that is allocated from undistributed prior-period earnings equal to the cumulative amount of the net increase at fair value in the prior period(s) may not be distributed. Subsequently, if there is any decrease in the cumulative amount of the net increase at fair value of investment property, or the investment property was disposed of, the amount of the decrease or the amount dictated by the circumstances of disposal may be reversed and proportionally appropriated for earnings distribution.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

② If the Company has already reclassified a portion of earnings to special reserve under the first subparagraph, it shall make supplemental allocation of special reserve for any difference between the amount it has already allocated and the amount of the current-period total net reduction of other shareholders' equity. An equivalent amount of special reserve shall be allocated from the after-tax net profit in the period, plus items other than after-tax net profit in the period, that are included in the undistributed current-period earnings and the undistributed prior-period earnings. A portion of undistributed prior-period earnings shall be reclassified to special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to the net reduction of other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

There is no need for the Company to distribute the earnings of 2021 and 2020 on the resolutions decided during the shareholders' meeting held on June, 24, 2022 and August, 27, 2021, respectively, because of the accumulated losses.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

	December 31, 2022	December 31, 2021 (Restatement)	January 1, 2021 (Restatement)
Contract liabilities-Building			
Construction	\$ 231,507	169,596	316,161
Contract liabilities-Civil Engineering	-	-	98,426
Total	\$ 231,507	169,596	414,587

The contract assets mentioned above include the retention, which is 5% to 10% deducted from the bills to make sure the construction progress. For the years ended December 31, 2022 and 2021, the retrieved condition of estimated retention according to the construction contract and estimated construction progress is as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Estimated Retrieved Year		
Less than one year	\$ 298,415	360,288
More than one year	594,797	513,451
	\$ 893,212	873,739

For the details of accounts receivable and loss allowance, please refer to Note 6(d).

For the details of the onerous contracts, please refer to Note 6(n).

The major change in the balance of contract assets and liabilities is the difference between the time the performance obligation is satisfied and the payment from customers is received, which is measured by the changing degree of completion of construction.

(u) Employee compensation and directors' remuneration

In accordance with the articles of incorporation the Company should contribute no less than 5% of the profit as employee compensation and less than 3% as directors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

For the years ended December 31, 2022 and 2021, the Company estimated its employee remuneration amounting to \$0, respectively, and directors' remuneration amounting to \$0, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors of each period, multiplied by the percentage of remuneration to employees, directors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2022 and 2021. Management is expecting that the differences, if any, between the actual distributed amounts and estimated amounts will be treated as changes in accounting estimates and charged to profit or loss.

There were no significant difference between employees' s compensation and remuneration of directors approved by the Board of Directors meeting and the estimated amount for the years of 2021.

(w) Financial instruments

(i) Credit risk

1) Credit risk exposure

The carrying amount of financial assets and contract assets represent the maximum amount exposed to credit risk.

2) Concentration of credit risk

Since the Company's clients mainly are other construction corporations and owners governmental public-constructions, the Company has to consistently evaluate the clients' financial condition and ask them to provide guarantee or warranty if necessary. The company still evaluates the possibility of accounts receivable recovery and recognizes loss allowance provision on a regular basis. The 95% and 99% of accounts receivable belonging to three clients and one client may result in the concentration of credit risk for the years ended December 31, 2022 and 2021.

3) Receivables

For credit risk exposure of note and account receivables, please refer to Note 6(d).

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

Guarantee deposit received - non current	<u>3,571</u>	<u>3,571</u>	<u>-</u>	<u>2,350</u>	<u>1,221</u>
	<u>\$ 3,933,445</u>	<u>3,937,900</u>	<u>3,370,663</u>	<u>467,517</u>	<u>99,720</u>

The Company does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(iii) Interest rate analysis

The interest risk exposure from financial assets and liabilities has been disclosed in the note of liquidity risk management.

The following sensitivity analysis is based on the risk exposure to interest rates on the non-derivate financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increase or decrease by 0.25% when reporting to management internally, which also represent the Company management's assessment of the reasonably possible interest rate change.

If the interest rate increases/decreases by 0.25%, the Company's net income have decrease/increase by \$2,069 thousand and \$2,536 thousand for the years ended December 31, 2022 and 2021, respectively, with all other variable factors remain constant. This is mainly due to the Company's borrowing at variable rate.

(iv) Other market price risk

If the equity price changes, the impact of equity price change to other comprehensive income will be as follows, assuming the analysis were based on the same basis, other variables considered in the analysis remain the same:

	<u>For the years ended December 31</u>			
	<u>2022</u>		<u>2021</u>	
	<u>Other comprehensive Income (after tax)</u>	<u>Net Income</u>	<u>Other comprehensive Income (after tax)</u>	<u>Net Income (Loss)</u>
<u>Price of securities at the reporting date</u>				
Increase 10%	<u>\$ 138</u>	<u>157</u>	<u>138</u>	<u>819</u>
Decrease 10%	<u>\$ (138)</u>	<u>(157)</u>	<u>(138)</u>	<u>(819)</u>

(Continued)

Notes to the Financial Statements

(v) Fair value of financial instruments

1) Fair value hierarchy

The fair value of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income are measured on a recurring basis. The carrying amount and fair value of the Company's financial assets and liabilities, including the information on fair value hierarchy are as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	December 31, 2022				
	Book Value	Fair Value			Total
		Level 1	Level 2	Level 3

2) Valuation techniques for financial instruments measured at fair value

Financial instruments traded in active markets are based on quoted market prices. Market prices quoted from main exchanges and over-the-counter are the basis of fair value of equity instruments and credit instrument traded in active markets.

Except for the financial instruments held by the Company have active market, other financial instruments' fair value is decided on the basis of general pricing model, which is analyzed by the discounted cash flows.

There have been no transfers from each level for the years ended December 31, 2022 and 2021.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

(x) Financial risk management

(i) Overview

The Company have exposures to the following risks from its financial instruments:

- 1) Credit risk
- 2) Liquidity risk
- 3) Market risk

The following likewise discusses the Company's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosure about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying financial statements.

(ii) Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the management framework.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

(iii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

1) Account and other receivables

The Company established a credit policy to obtain the necessary collateral to mitigate risks arising from financial loss due to the default risk. The Company will transact with corporations having credit ratings equivalent to investment grade, and such ratings are provided by independent rating agencies. Where it is not possible to obtain such information, the Company will assess the ratings based on other publicly available financial information and records of transactions with its major customers. The Company continuously monitors the exposure to the credit risk and counterparty credit ratings, and establish sales limits based on the credit rating for each of its approved customer. The credit limits for each counterparty are approved and reviewed annually by the Risk Management Committee.

The Company did not have any collateral or other credit enhancements to avoid credit risk of financial assets.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.

Notes to the Financial Statements

2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Company's finance department. The Company only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Company does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

3) Guarantees

The Company's policy is to provide financial guarantees only to wholly owned subsidiaries and construction. On December 31, 2022 and 2021, no other guarantees were outstanding.

(iv) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Each market risk management information is as follows:

1) Interest rate risk

The Company adopts a policy of ensuring that interest rates on borrowings are on a variable-rate basis. Considering the lower market rate, the Company did not sign any interest rate swap contract. The interest rate swap contract can be adopted to lower the risk if the interest rate is raising.

2) Other market price risk

The Company is exposed to the equity price risk due to the investments in equity securities. This is a strategic investment and is not held for trading. The Company does not actively trade in these investments. The Company assigned a specific team to supervise and assess the equity price risk so as to avoid or minimize the risk from the hedging position.

(Continued)

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.
Notes to the Financial Statements

(y) Capital management

The objectives of the Board's policy are to maintain an optimal capital structure to keep the investors, creditors, the market faith, and the future operation. The capital consists of the Company's capital stock, retained earnings and net liabilities. The Board of Directors is in charge of return on capital as well as monitoring the level of common stock's dividend. The debt-to- capital ratio at the end of the reporting period as of December 31, 2022, is as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Total liabilities	\$ 4,918,868	4,265,093
Less: cash and cash equivalents	(962,352)	(1,119,208)
Net debt	3,956,516	3,145,885
Total equity	1,362,366	1,981,775
Adjusted capital	\$ 5,318,882	5,127,660
Debt to equity ratio	74.39%	61.35%

(7) Related-party transactions:

(a) The ultimate parent company

Independent Auditors' Report

To the Board of Directors of NEW ASIA CONSTRUCTION& DEVELOPMENT CORP.:

Opinion

We have audited the consolidated financial statements of NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2022 and 2021, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountants of Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

As stated in Notes 4(j) and 4(u) to the financial statements, the Group changed the subsequent measurement of investment property from the cost model to the fair value model effective from the fourth quarter of 2022, and retroactively restated the financial statements for 2021. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Revenue recognition

For the revenue recognition account policy, please refer to Note4(p); for the evaluation of revenue recognition during the years, please refer to Note6(t).

Description of key audit matter:

The main business operation is construction. The Group recognizes the revenue of contracts under construction according to the level of commitment, due to the total contract price of the contracted project and the accounting treatment of the construction contract involves judgement of the management. Therefore, the test of revenue recognition is considered as one of the key audit matters.

Corresponding audit procedure:

Our main audit procedures for the above key audit matter include: evaluating the design, operation and implantation of the effectiveness of internal control on revenue recognition; understanding the specific terms and risks of material contracts by examining them and interviewing the management. Review the list of additions and subtractions to the total contract price of each project, and check the external documents such as the contract agreement, the owner's letter or the minutes of the coordination meeting with the owner; To make sure the construction price accuracy, we examine the price certificated to owners and verify the related valuation document. Calculating the percentage of completion of the construction; evaluating the foundation of the managements' estimation through reviewing the external document such as the record of dealings with customers. We evaluate the revenue recognition of the completed constructions and consider whether it was already disclosed appropriately.

Other Matter

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. has additionally prepared its parent-company-only financial statements as of and for the years ended December 31, 2022 and 2021, on which we have issued an unmodified opinion with Emphasis of Matter paragraphs.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chung-Che Chen and Shu-Ying Chang.

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)
NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

For the years ended December 31, 2022 and 2021

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. (the “Company”) was established on December 4, 1967, with the approval of the Ministry of Economic Affairs, and its registered address is 15F, 16F., NO.760, SEC. 4, Bade RD, Songshan Dist, Taipei, Taiwan. The main business items of the Company and its subsidiaries (the “Group”) are construction of heavy equipment needed civil engineering, development business related to land and community, construction, leasing or selling of public housing and office building, repairment, leasing and selling of heavy equipment, manufacturing and selling of ready mixed concrete and asphalt concrete and investment.

(2) Approval date and procedures of the consolidated financial statements:

The accompanying consolidated financial statements were authorized for issue by the Board of Directors on March 9, 2023 .

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2022:

- Amendments to IAS 16 “Property, Plant and Equipment—Proceeds before Intended Use”
- Amendments to IAS 37 “Onerous Contracts—Cost of Fulfilling a Contract”
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 “Reference to the Conceptual Framework”

- (b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2023, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”
- Amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The Group does not expect the following new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “ Insurance Contracts” and amendments to IFRS 17 “ Insurance Contracts”
- Amendments to IAS 1 “Classification of Liabilities as Current or Non-current”
- Amendments to IAS 1 “Non-current Liabilities with Covenants”
- Amendments to IFRS 17 “Initial Application of IFRS 17 and IFRS 9 – Comparative Information “
- IFRS16 “Requirements for Sale and Leaseback Transactions”

(4) Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized below. Except for those specifically indicated, the following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

- (a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C.

- (b) Basis of preparation

- (i) Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

- 1) Financial instruments measured at fair value through profit or loss are measured at fair value;
- 2) Financial assets at fair value through other comprehensive income are measured at fair value;
- 3) Investment property, measured at fair value; and
- 4) The defined benefit liabilities are measured at fair value of the plan assets less the present value of defined benefit obligation, limited as explained in Note 4(q).

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Functional and presentation currency

The functional currency of each Group entities is determined based on the primary economic environment in which the entities operate. The Group's consolidated financial statements are presented in New Taiwan Dollar (NTD), which is the Company's functional currency. All the financial information in NTD has been rounded to the nearest thousands.

(c) Basis of consolidation

(i) Principles for preparing consolidated financial statements

The consolidated financial statements comprise the Company and its subsidiaries.

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from Intragroup transactions are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

The Group prepares consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

(ii) List of subsidiaries in the consolidated financial statements:

Investor	Name of Subsidiary	Principal Activity	Shareholding		Notes
			December 31, 2022	December 31, 2021	
The Company	New Asia Technology Development Company PTE, LTD. (New Asia Technology)	Investing	100.00 %	100.00 %	Holding Company investing to Mainland China
New Asia Technology	Nanton Xin Yue Health Management LTD. (Nanton Xin Yue)	Health Advisory, Health Management and Maternal/Child Nursing	100.00 %	100.00 %	

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(d) Foreign currencies

(i) Foreign currencies transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date.

Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- 1) An investment in equity securities designated as at fair value through other comprehensive income;
- 2) A financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- 3) Qualifying cash flow hedges to the extent that the hedge is effective.

(ii) Foreign operation

The assets and liabilities of foreign operations are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When a foreign operation is disposed of such that control, significant influence, or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, foreign exchange gains and losses arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issue of equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; Fair value through other comprehensive income (FVOCI) – debt investment; FVOCI – equity investment; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group's right to receive payment is established.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, amortized costs, notes and trade receivables, other receivable, leases receivable, guarantee deposit paid and other financial assets), and contract assets.

The Group measures loss allowances at an amount equal to lifetime expected credit loss (ECL), except for the following which are measured as 12-month ECL:

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data:

A breach of contract such as a default or being more than 30 days past due;

The disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charge to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Compound financial instruments

Interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

5) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Investments in associates

Associates are those entities in which the Group has significant influence, but no control, over the financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition, minus any accumulated impairment losses.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of those associates, after adjustments to align the accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from the transactions between the Group and an associate are recognized only to the extent of unrelated Group's interests in the associate.

When the Group's share of losses of an associate equals or exceeds its interest in associates, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(i) Joint Arrangements

A joint arrangement is an arrangement in which two or more parties have joint control. The IFRS classifies joint arrangements into two types — joint operations and joint ventures, which have the following characteristics(a) the participants are bound by a contractual arrangement; and (b) the contractual arrangement gives two or more of those parties joint control of the arrangement. IFRS 11 “Joint Arrangements” defines joint control as the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities (ie activities that significantly affect the returns of the arrangement) require the unanimous consent of the parties sharing control.

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement (i.e. operator) have rights to the assets and are obligated to the liabilities related to the arrangement. The Group accounts for the assets, liabilities, revenues and expenses in relation to its interest in a joint operation in accordance with the IFRSs applicable to the particular assets, liabilities, revenues and expenses.

When assessing the classification of a joint arrangement, the Group considers the structure and legal form of the arrangement, the terms in the contractual arrangement, and other facts and circumstances.

(j) Investment property

In the fourth quarter of 2022, the group changed the subsequent measurement of investment property from the cost model to the fair value model after evaluation by the group's management. Please refer to Note 4 (u) for details about the changes in accounting policies.

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is initially measured at cost and subsequently at fair value with any change therein recognized in profit or loss.

Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized in profit or loss. When investment property that was previously classified as property, plant and equipment is sold, any related amount included in ‘other equity - revaluation surplus’ is transferred to retained earnings.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognized as an integral part of the total rental income, over the term of the lease.

(k) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straightline basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

(1) Buildings	40 ~ 56 years
(2) Machinery and equipment	1 ~ 10 years
(3) Transportation equipment	3 ~ 10 years
(4) Other equipment	3 ~ 8 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(iv) Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is remeasured to fair value and reclassified accordingly. Any gain arising on this remeasurement is recognized in profit or loss to the extent that it reverses a previous impairment loss on the specific property, with any remaining gain recognized in other comprehensive income and presented in 'other equity - revaluation surplus'.

Any loss is recognized in profit or loss. However, to the extent that an amount is included in the revaluation surplus for that property, the loss is recognized in other comprehensive income and reduces the revaluation surplus within equity.

(l) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- 1) fixed payments, including in-substance fixed payments;
- 2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- 3) amounts expected to be payable under a residual value guarantee; and
- 4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- 1) there is a change in future lease payments arising from the change in an index or rate; or
- 2) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- 3) there is a change in the lease term resulting from a change of its assessment on whether it will exercise an option to purchase the underlying asset, or
- 4) there is a change of its assessment on whether it will exercise a purchase, extension or termination option; or
- 5) there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets, including work station, office facilities and company cars. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

The lessor recognizes a finance lease receivable at an amount equal to its net investment in the lease. Initial direct costs, such as lessors to negotiate and arrange a lease, are included in the measurement of the net investment. The lessor recognizes the interest income over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

(m) Intangible assets

(i) Computer softwares

The Group acquire and measure computer softwares at cost, less accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives three or four years of intangible assets from the date that they are available for use.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(n) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(o) Provisions

(i) Warranties and Legal law suits

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and an outflow of economic benefits is possibly required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Warranties provisions are recognized at the year the construction are completed and measured at the related weighted probability according to the historical warranty information and all the possible outcomes.

(ii) Onerous contracts

A provision for onerous contracts is recognized when the expected benefits to be derived by the Group from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognizes any impairment loss on the assets associated with that contract.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(p) Revenue from contracts with customers

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1) Construction contracts

The Group enters into contracts to build residential properties, commercial buildings and public constructions. Because its customer controls the asset as it is constructed, the Group recognizes revenue over time on the proportion of the cost certificate and payment to the total contract revenue as of the financial reporting date or milestone progress agreed in the contract. The consideration promised in the contract includes fixed and variable amounts. The customer pays the fixed amount based on a payment schedule. For some variable considerations (for example, any additional changes related to contracts, a penalty payment calculated based on delay days and price adjustment allowance), accumulated experience is used to estimate the amount of variable consideration, using the expected value method. For other variable considerations (for example, completion bonus if a construction is completed by a specified date), the Group estimates the amount of variable consideration using the most likely amount. Considering the progress of a public construction is highly susceptible to factors outside the Group's control and, therefore, completion bonus is usually constrained, the Group recognizes revenue only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. If the Group has recognized revenue, but not issued a bill, then the entitlement to consideration is recognized as a contract asset. The contract asset is transferred to receivables when the entitlement to payment becomes unconditional.

If the Group cannot reasonably measure its progress towards complete satisfaction of the performance obligation of a construction contract, the Group shall recognize revenue only to the extent of the costs expected to be recovered.

A provision for onerous contracts is recognized when the Group expects the unavoidable costs of performing the obligations under a construction contract exceed the economic benefits expected to be received under the contract.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

For residential properties, commercial buildings and public constructions, the Group offers a standard warranty to provide assurance that they comply with agreed-upon specifications and has recognized warranty provisions for this obligation; please refer to Note 6(n).

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Financial components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(ii) Contract costs

1) Incremental costs of obtaining a contract

The Group recognizes as an asset the incremental costs of obtaining a contract with a customer if the Group expects to recover those costs. The incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained. Costs to obtain a contract that would have been incurred regardless of whether the contract was obtained shall be recognized as an expense when incurred, unless those costs are explicitly chargeable to the customer regardless of whether the contract is obtained.

The Group applies the practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.

2) Costs to fulfil a contract

If the costs incurred in fulfilling a contract with a customer are not within the scope of another Standard (for example, IAS 2 Inventories, IAS 16 Property, Plant and Equipment or IAS 38 Intangible Assets), the Group recognizes an asset from the costs incurred to fulfill a contract only if those costs meet all of the following criteria:

- a) the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify;
- b) the costs generate or enhance resources of the Group that will be used in satisfying (or in continuing to satisfy) performance obligations in the future; and
- c) the costs are expected to be recovered.

General and administrative costs, costs of wasted materials, labor or other resources to fulfill the contract that were not reflected in the price of the contract, costs that relate to satisfied performance obligations (or partially satisfied performance obligations), and costs for which the Group cannot distinguish whether the costs relate to unsatisfied performance obligations or to satisfied performance obligations (or partially satisfied performance obligations), the Group recognizes these costs as expenses when incurred.

(q) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(r) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes are recognized except for the following:

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

- (i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;
- (ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if the following criteria are met:

- (i) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
 - (ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - 1) the same taxable entity; or
 - 2) different taxable entities which intend to settle current tax assets and liabilities on a net basis, or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.
- (s) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary shareholders of the Group. Basic earnings per share is calculated as the profit attributable to ordinary shareholders of the Group divided by the weighted average number of ordinary shares outstanding. Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Group divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as convertible bonds and employee compensation.

- (t) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may incur revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. Each operating segment consists of standalone financial information.

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(u) Changes in accounting policies

After evaluation by the group's management, in order to more reasonably reflect the value and performance of investment property, so that the financial statements can provide reliable and more relevant information on the impact of relevant transactions on the group's financial position, financial performance or cash flow, the group changed the subsequent measurement of investment property from the cost model to the fair value model starting from the fourth quarter of 2022.

According to International Accounting Standard No. 8 "Accounting Policies, Changes in Accounting Estimates and Errors", this accounting policy should be applied retrospectively. The restated comparative information and the impact of the change in accounting policy on the Group's financial report are described as follows:

<u>January 1, 2021 Balance Sheet</u>	<u>Reported amount before restatement</u>	<u>Effect of changes in accounting policies</u>	<u>Reported amount after restatement</u>
Investment property	\$ 516,614	217,683	734,297
Deferred tax liabilities	15,836	64,408	80,244
Retained earnings	(484,471)	153,275	(331,196)

<u>December 31, 2021 Balance Sheet</u>	<u>Reported amount before restatement</u>	<u>Effect of changes in accounting policies</u>	<u>Reported amount after restatement</u>

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the consolidated financial statements in conformity with the IFRSs endorsed by the FSC requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

The Group is likely to be facing economic uncertainty, such as COVID-19, natural disasters, the Ukraine–Russia conflict and inflation. Those events may have a significant impact in the next financial year on the following accounting estimates, which depend on the future forecasts.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

(a) Judgment regarding significant influence of associates

The Group has less than 20% of the voting or potential voting rights of Hefa Land Development Corporation. However, the Group has determined that it has significant influence because it has representation on the one-third of board of Hefa Land Development Corporation and can participate in its decision of financial and operation policies according to the agreement.

(b) Classification of joint arrangements

TITAN DEVELOPMENT AND CONSTRUCTION., LTD and DONG PI CO., LTD are structured as separate vehicles, and the collective control exists between the two parties. The Group gave two parties joint control over the rights to the assets and the obligation to the liabilities over the agreement. As the consequence, the Group classified the joint arrangement as joint operation and recognize each assets, liabilities, income and expenses. For more information, Please refer to Note 6(g).

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of COVID-19 pandemic:

(a) Recognition and measurement of provisions and contingent liabilities

Provision for warranty is estimated when construction contracted is completed. The estimate has been made based on the , the historical provision information and all kind of possible outcome. The Group regularly reviews the basis of the estimate and, if necessary, amends it as appropriate. There could be a significant impact on provision for warranty for any change in the basis of the estimate.

Provision for unsettled litigation and claims is recognized when it is probable that it will result in an outflow of the Group's resources and the amount can be reasonably estimated. Since the ultimate resolution of litigation and claims cannot be predicted with certainty, the final outcome or the actual cash outflow may be materially different from the estimated liability.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Refer to Note 6(n) for further description of the key assumptions as to the probability of an outflow of resources and the amount to be recognized.

(b) Recognition of deferred tax assets

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which those deferred tax assets can be utilized. Assessment of the realization of the deferred tax assets requires management's subjective judgment and estimate, including the future revenue growth and profitability, tax holidays, the amount of tax credits that can be utilized and feasible tax planning strategies. Changes in the economic environment, industry trends, and relevant laws and regulations may result in adjustments to the deferred tax assets. Refer to Note 6(r) for further description of the recognition of deferred tax assets.

The Group's accounting policies include measuring financial and non-financial assets and liabilities at fair value through profit or loss. The Group has established a financial instrument valuation group to conduct independent verification on fair value by using data sources that are independent, reliable, and representative of exercise prices. This financial instrument valuation group also periodically adjusts valuation models, conducts back-testing, renews input data for valuation models, and makes all other necessary fair value adjustments to assure the rationality of fair value.

The Group strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- (a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- (b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- (c) Level 3: inputs for the assets or liability that are not based on observable market data.

For any transfer within the fair value hierarchy, the impact of the transfer is recognized on the reporting date.

Please refer to notes listed as below for assumptions used in measuring fair value.

- (a) Note 6(j), Investment property
- (b) Note 6(w), Financial instruments

(6) Explanation of significant accounts:

- (a) Cash and cash equivalents

	December 31, 2022	December 31, 2021 (Restatement)
Cash on hand	\$ 7,640	6,540
Demand deposits	891,235	807,421
Check deposits	87,884	335,715
Time deposits	239,801	592,922
	<u>\$ 1,226,560</u>	<u>1,742,598</u>

NEW ASIA CONSTRUCTION & DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Please refer to Note 6(w) for sensitivity analysis and interest rate risk of financial assets and liabilities of the Group.

- (b) Financial assets at fair value through profit or loss

	December 31, 2022	December 31, 2021 (Restatement)
Financial assets at fair value through profit or loss		
Mega Singapore Real Estate Income Fund	\$ 1,960	-
Mega Taiwan Financial and Conventional Fund	-	10,240
FSITC Global Video Gaming & eSports Fund	\$ 1,960	10,240

- (i) For the net gain or loss on fair value of financial instruments at FVIPL, please refer to Note 6(w).
- (ii) For credit risk and market, please refer to Note 6(x).
- (iii) The aforesaid financial assets were not pledged as collateral.

- (c) Financial assets at fair value through other comprehensive income

	December 31, 2022	December 31, 2021 (Restatement)
Financial assets at fair value through other comprehensive income		
Non-current		
Unlisted common shares	\$ 1,727	1,727

- (i) Equity investments at fair value through other comprehensive income

The Group intends to hold the equity investment for long-term strategic purposes, rather than transaction purposes. Therefore, the investments are measured at FVOCI.

- (ii) For credit risk and market risk, please refer to Note 6(x).
- (iii) The aforesaid financial assets were not pledged as collateral.

- (d) Note and account receivables

	December 31, 2022	December 31, 2021 (Restatement)
Notes receivable from operating activities	\$ 145	101
Accounts receivables—measured as amortized cost	130,618	22,641
Less: Loss allowance	-	-
	\$ 130,763	22,742

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Please refer to Note 6(t) for more information about the expected recovery of contract assets based on construction contracts and estimated construction progress.

The Group's account receivables are mostly from the Government or customers who have signed the contracts with. As a consequence, based on the use of lifetime expected loss provision for all receivables, there is no necessary for the Group to recognize loss allowance from the account receivables that are not overdue.

The aforesaid financial assets were not pledged as collateral.

(e) Prepayments

	December 31, 2022	December 31, 2021 (Restatement)
Prepayments for construction in progress	\$ 7,189	43,960
Prepayments for materials	-	38
Prepayments for construction all risk insurance	144,853	87,240
Other	17,821	38,807
	\$ 169,863	170,045

(f) Investments accounted for using equity method

The investment of the Group using the equity method on the reporting date is as follows:

	December 31, 2022	December 31, 2021 (Restatement)
Associates	\$ 40,168	319,695

(i) Associates

Associates which are material to the Group consisted of the following:

Name of Associate	Nature of Relationship with the Group	Main operating location /Registered Country of Company	Proportion of Shareholding and Voting Rights	
			December 31, 2022	December 31, 2021
Hefa Land Development Corporation	The Group's strategic alliance of contracting construction and its main business item are housing and building development	Taiwan	10 %	10 %

The cash return of \$260,000 thousand and \$100,000 thousand, which the Group received from Hefa Land Development Corporation in 2022 and 2021, was rendered as capital reduction through cash returns to shareholders, with the base date set on November 4, 2022 and October 8, 2021. Since the above transaction has significant impact on the Group's financial statements, it was therefore recognized by using the equity method.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The following consolidated financial information of significant associates was been adjusted according to individually prepared IFRS financial statements of these associates.

The financial information on Hefa Land Development Corporation is summarized as follows:

	<u>December 31,</u> <u>2022</u>	<u>December 31,</u> <u>2021</u>
Current assets	\$ 727,193	1,108,461

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

In accordance with Article34 of the Regulations on Real Estate Appraisal, the procedures of the income approach include estimating the effective gross income and total expenses, computing the net operating income, determining the capitalization rate or discount rate, and computing the income. The attributes used by the Group for the estimations above were the last three years' data from the subject property and comparable properties which have similar characteristics, and these data were assessed and adjusted based on their persistency, stability, and growth to ensure the availability and reasonableness of these data. The movement of income (cash inflows) and expenditure (cash outflows) for future periods was based on the vacancies or losses, existing or future cash flow plans of the Group, and historical cash flows from the subject property, identical properties, or properties in the same industry. The estimation and computation of the net income were based on the highest and best use of the subject property and have taken into consideration the income generated from comparable properties in the same location based on their highest and best use.

The discount rate is determined by the risk premium method, which takes into account factors such as interest rates on bank deposits, interest rates on government bonds, the riskiness of real estate investments, currency fluctuations and trends in real estate prices, and selects the rate of return on the most general property as the basis, adjusting for differences in the individual characteristics of the property and the subject property. The discount rate is based on the two-year postal time deposit rate plus 2.22%, taking into account the income, liquidity, risk, value-added and management difficulties of the subject. The risk premium was added on December 31, 2022 and 2021, to determine the discount rate of the subject, which ranged from 3.1%~3.7% and 3.7%, respectively. The capitalization of earnings was estimated by dividing the net income of the comparables by the price, and the capitalization rates of 1.28%~1.95% and 1.39%~1.95% were calculated on a weighted average basis.

(k) Other current financial assets and other non-current financial assets

	December 31, 2022	December 31, 2021 (Restatement)
Current:		
Restricted assets	\$ 719,693	595,427

	<u>\$ 785,988</u>	<u>681,633</u>
Non-current:		
Refundable deposits	<u>\$ 7,790</u>	<u>6,864</u>

The other current financial assets of the Group had pledged as collateral, please refer to Note 8.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(l) Short-term borrowings

The short-term borrowing were summarized as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021 (Restatement)</u>
Unsecured bank loans	\$ -	30,000
Secured bank loans	<u>1,034,613</u>	<u>1,237,997</u>
Total	<u>\$ 1,034,613</u>	<u>1,267,997</u>
Unused credit limit	<u>\$ 2,937,613</u>	<u>2,984,116</u>
Interest rate range	<u>1.97%~2.23%</u>	<u>1.34%~1.72%</u>

(i) Borrowing and repayment

The Group obtained the amounts of \$811,028 thousand and \$1,310,491 thousand from short-term borrowings, as well as the amounts of \$1,044,412 thousand and \$895,960 thousand from repayments, for the years ended December 31, 2022 and 2021, respectively.

(ii) Collateral for bank borrowings

The Group had pledged as the collateral for bank borrowings, please refer to note 8.

(m) Lease liabilities

The carrying amount of lease liabilities were as follows:

	<u>December 31, 2022</u>	<u>December 31, 2021 (Restatement)</u>
Current	<u>\$ 39,065</u>	<u>19,427</u>
Non-current	<u>\$ 27,089</u>	<u>18,978</u>

For maturity analysis, please refer to Note 6(w).

The amounts recognized in profit or loss were as follows:

	<u>For the year ended December 31 2022</u>	<u>2021 (Restatement)</u>
Interest on lease liabilities	<u>\$ 918</u>	<u>722</u>
Expenses relating to short-term leases	<u>\$ 5,748</u>	<u>3,064</u>

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The amounts recognized in the statement of cash flows for the Group were as follows:

	For the year ended December 31	
	2022	2021 (Restatement)
Total cash outflow for leases	\$ 52,221	37,296

(i) Real estate leases

As of December 31, 2022, the Group leases land, buildings, for its office space. The leases of office space typically run for a period of 1 to 5 years. Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

Part of equipment leases contain extension or cancellation options exercisable by the Group up to one year before the end of the non-cancellable contract period. These leases are negotiated and monitored by local management, and accordingly, contain a wide range of different terms and conditions. The extension options held are exercisable only by the Group and not by the lessors. In which leasee is not reasonably certain to use an optional extended lease term, payments associated with the optional period are not included within lease liabilities.

(ii) Other leases

The Group leases vehicles and equipment, with general lease terms of three years.

Besides, some leases terms shorter than 12 months are short-term items. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases.

(n) Provisions

	Warranties	Legal	Onerous Contracts	Total
Balance on January 1, 2022(Restatement)	\$ 23,129	26	-	23,155

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

	December 31, 2022	December 31, 2021 (Restatement)
Current	\$ 454,564	17,849
Non-current	1,680	5,306
	\$ 456,244	23,155

(i) Please refer to Note 6(p) for the short-term employee's paid leave liabilities.

(ii) Warranties

The provision for warranties are mainly related to construction contracts for the years ended December 31, 2022 and 2021. The provision is based on estimates made from historical warranty data associated with each kind of construction. The Group expects to settle the majority of the liability within one to five years after the construction was completed.

(iii) Onerous contract

As of December 31, 2022, because the contract cost exceeds the expected contract revenue, each construction recognize provision in response to the related construction cost, which is presented as follows:

	December 31, 2022	December 31, 2021 (Restatement)
A147	\$ 17,867	-
C287	103,758	-
C292	179,956	-
C295	2,259	-
C296	133,267	-
	\$ 437,107	-

(o) Operating lease

Please refer to Note 6(k) for details of the investment property leased by the Group under an operating lease. The minimum lease payments receivable in future during the non-cancellable lease term are as follows:

	December 31, 2022	December 31, 2021
Within one year	\$ 14,047	19,320
Between one and five years	19,457	32,088
	\$ 33,504	51,408

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The rental income from investment property for the years ended December 31, 2022 and 2021, are \$18,675 thousands and \$17,972 thousands, respectively. In addition, there were no material maintenance expense.

(p) Employee benefits

(i) Defined benefit plan

Reconciliation of defined benefit obligations at present value and plan asset at fair value were as follows:

	December 31, 2022	December 31, 2021
Present value of defined benefit obligations	\$ 82,418	99,780
Fair value of plan assets	<u>(86,759)</u>	<u>(94,532)</u>
Net defined benefit liabilities/assets	<u>\$ (4,341)</u>	<u>5,248</u>

The Group's employee benefit liabilities were as follows:

	December 31, 2022	December 31, 2021
Short-term employee benefits liabilities	<u>\$ 18,984</u>	<u>18,228</u>

The Group makes defined benefit plan contributions to the pension fund account with Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years of service and average monthly salary for the six months prior to retirement.

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The Group's Bank of Taiwan labor pension reserve account balance amounted to \$86,759 thousand as of December 31, 2022. For information on the utilization the labor pension fund assets, including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Fund, Ministry of Labor.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Movements in present value of the defined benefit obligations

The movements in present value of defined benefit obligations for the years ended December 31, 2022 and 2021 are as follows:

	For the Years Ended December 31	
	2022	2021
Defined benefit obligations at January 1	\$ 99,780	151,904
Current service costs and interest cost	1,978	2,301
Remeasurements of the net defined benefit liabilities		
– Actuarial gains arising from experience adjustments	3,570	594
– Actuarial gains from changes in demographic assumptions	-	54
– Actuarial gains from changes in financial assumption	(2,812)	(2,662)
Benefits paid by the plan	(20,098)	(52,411)
Defined benefit obligation at December 31	\$ 82,418	99,780

3) Movements of defined benefit plan assets

The movements in the present value of the defined benefit plan assets for the years ended December 31, 2022 and 2021 are as follows:

	For the Years Ended December 31	
	2022	2021
Fair value of plan assets at January 1	\$ 94,532	140,140
Interest revenue	594	329
Remeasurements of the net defined benefit liabilities		
– Return on plan assets (not including current interest cost)	9,204	2,237
Contributed amount	2,527	3,962
Benefits paid by the plan	(20,098)	(52,411)
Fair value of plan assets at December 31	\$ 86,759	94,257

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Expenses recognized in profit or loss

The Group's pension expenses recognized in profit or loss for the years ended December 31, 2022 and 2021 are as follows:

	For the Years Ended December 31	
	2022	2021
Current service costs	\$ 1,362	1,950
Interest expense	616	351
Net interest of net liabilities for defined benefit obligations	(594)	(329)
	\$ 1,384	1,972
Operating costs	\$ 1,173	1,897
Administrative expenses	211	75
	\$ 1,384	1,972

5) Remeasurement of the net defined benefit liabilities recognized in other comprehensive income

The Group's net defined benefit liability recognized in other comprehensive income for the years ended December 31, 2022 and 2021 are as follows:

	For the Years Ended December 31	
	2022	2021
Cumulative amount at January 1	\$ 16,866	12,615
Recognized during the period	8,446	4,251
Cumulative amount at December 31	\$ 25,312	16,866

6) Actuarial assumptions

The principal actuarial assumptions at the reporting date were as follows:

	For the Years Ended December 31	
	2022	2021
Discount rate	1.20 %	0.65 %
Future salary increase rate	1.00 %	1.00 %

Based on the actuarial report, the Group is expected to make a contribution payment of \$2,509 thousand to the defined benefit plans for the one year period after the reporting date of 2022.

The weighted-average duration of the defined benefit plan is 6 years.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

7) Sensitivity Analysis

As of December 31, 2022 and 2021, the changes in the principal actuarial assumptions that will have impact on the present value of the defined benefit obligation are as follows:

	Impact on Present Value of Defined Benefit Obligations	
	Increase by 0.25%	Decrease by 0.25%
December 31, 2022		
Discount rate	\$ (1,227)	1,259
Future salary increase rate	1,260	(1,235)
December 31, 2021		
Discount rate	(1,626)	1,671
Future salary increase rate	1,663	(1,627)

The sensitivity analysis assumed all other variables remain constant during the measurement. This may not be representative of the actual change in defined benefit obligations as some of the variables may be correlated in the actual situation. The model used in the sensitivity analysis is the same as the defined benefit obligation liability.

The analysis is performed based on the same basis for prior year.

(ii) Defined contribution plan

The Group allocates 6% of each employee's monthly wages to the labor pension personal account at the Bureau of the Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Group allocates a fixed amount to the Bureau of the Labor Insurance without additional legal or constructive obligations.

The Group's pension costs in curred from the contribution to the Bureau of Labor Insurance amounted to \$22,701 thousand and \$22,431 thousand for the years ended December 31, 2022 and 2021, respectively.

(q) Income tax

(i) Tax expense

The Group of income tax for the years ended December 31, 2022 and 2021 are as follows:

	For the Years Ended December 31	
	2022	2021 (Restatement)
Current income tax expense		
Current period incurred	\$ -	-
Deferred tax expense (income)		
The origination and reversal of temporary differences	1,994	575
Income tax expense	\$ 1,994	575

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The amount of income tax recognized in other comprehensive income for the years ended December 31, 2022 and 2021 are as follows:

	For the Years Ended December 31	
	2022	2021 (Restatement)
Items that may not be reclassified subsequently to profit or loss:		
Remeasurements of the defined benefit plans	\$ 1,689	850
Revaluation increment on real estate	8,526	1,066
	\$ 10,215	1,916

Reconciliation of income tax and profit before tax for the years ended December 31, 2022 and 2021 are as followed:

	For the Years Ended December 31	
	2022	2021 (Restatement)
Profit (loss) before income tax	\$ (771,154)	117,797
Income tax expense at domestic statutory tax rate	(154,231)	23,559
Investment losses accounted for using equity method	6,886	(7,852)
Current-year losses for which no deferred tax asset was recognized	68,743	30,763
Change in unrecognized temporary difference	80,596	(45,686)
Others	-	(209)
Income tax expense	\$ 1,994	575

(ii) Deferred tax assets and liabilities recognized

1) Unrecognized deferred tax assets

	December 31, 2022	December 31, 2021 (Restatement)
Impairment loss of financial assets	\$ 1,048	1,048
Unrealized construction losses	47,263	42,953
The carryforward of unused losses	362,466	294,410
Total	\$ 410,777	338,411

The ROC Income Tax Act allows net losses, as assessed by the tax authorities, to offset taxable income over a period of ten years for local tax reporting purpose. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilize the benefits therefrom.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

As of December 31, 2022, the information of the Group's unused tax losses for which no deferred tax assets were recognized are as follows:

Year of loss	Unused tax loss	Expiry year
2016	\$ 249,509	2026
2017	648,720	2027
2018	96,710	2028
2020	323,296	2030
2021	150,379	2031
2022	343,715	2032
	\$ <u>1,812,329</u>	

2) Recognized deferred tax assets and liabilities

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) The Company's income tax returns have been assessed and approved by the Tax Authority through 2020.

(r) Capital and other equity

(i) Ordinary shares

As of December 31, 2022 and 2021, the authorized capital of Company consisted of \$3,920,000 thousand, with par value of \$10 per share, and the number of issued shares is \$226,279 thousands share. The payment of all issued shares has been collected.

The reconciliation of the outstanding shares for the years ended December 31, 2022 and 2021 were as follows:

	(In thousands of shares)	
	For the Years Ended December 31	
	2022	2021
December 31 (the same as beginning balance)	\$ <u>226,279</u>	<u>226,279</u>

(ii) Capital surplus

The components of the capital surplus are as follows:

	December 31, 2022	December 31, 2021
Treasury share transactions	\$ <u>13,156</u>	<u>13,156</u>

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

(iii) Retained earnings

The Company's Article of Incorporation stipulate that Company's net earnings should first be used to offset the prior years' deficits, if any, before paying any income taxes or salary. Of the remaining balance, 10% is to be appropriated as legal reserve, and then any remaining profit, together with any undistributed retained earnings, shall be distributed according to the distribution plan proposed by the Board of Directors to be submitted to the stockholders' meeting for approval.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

The Company is in the mature stage of the Construction Industry business circle. To make sure the market competitiveness, the Company still have to consistently invest capital to expand the operation activities and search for the new opportunity of the corporate transformation. The stability and growth of the dividend should be focused when the Boards of Directors proposes the distribution plan and determining the appropriate method of stock or cash dividends to be paid according to the current year's operation condition and the capital budget planning. After the above appropriations, current and prior-period earnings that remain undistributed will be proposed for distribution by the Board of Directors, and a meeting of shareholders will be held to decide on this matter. The cash dividends shall not be below 20% of the total dividends.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Special reserve

The Company applied the exemptions at the first-time adoption of IFRS, and increased its retained earnings by \$286,775 thousand, which resulted from the fair value of investment property being used as the cost on initial recognitions at the transition date. In accordance with the Financial Supervisory Commission, a special reserve, which amounted to \$180,637 thousand is appropriated from current and prior period earnings. The aforementioned special reserve may be reversed in proportion with the usage, disposal, or reclassification of the related assets, and then, be distributed afterwards. As of December 31, 2022 and 2021, the Company recognized the special reserve related to all IFRSs adjustments amounted to \$169,732 thousand and \$171,839 thousand. When the debit balance of any of the contra accounts in the shareholders' equity is reversed, the related special reserve can be reversed. The subsequent reversals of the contra accounts in shareholders' equity shall qualify for additional distributions.

The Company chose to adopt a fair value model for subsequent measurement of its investment property at fair value. In accordance with the requirements of the FSC, with respect to the amount of the net increase at fair value classified to retained earnings, the Company shall allocate the same amount in special reserve. When the Company distributes its earnings annually, it shall make provision for the special reserve in the following order:

① With respect to the amount of the net increase at fair value arising from the subsequent measurements of investment property at fair value in the current year, an equivalent amount of special reserve shall be allocated from the after-tax net profit in the period, plus items other than the after-tax net profit in the period, that are included in the undistributed current period earnings and the undistributed prior period earnings. An amount of special reserve that is allocated from undistributed prior-period earnings equal to the cumulative amount of the net increase at fair value in the prior period(s) may not be distributed. Subsequently, if there is any decrease in the cumulative amount of the net increase at fair value of investment property, or the investment property was disposed of, the amount of the decrease or the amount dictated by the circumstances of disposal may be reversed and proportionally appropriated for earnings distribution.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

②If the Company has already reclassified a portion of earnings to special reserve under the first subparagraph, it shall make supplemental allocation of special reserve for any difference between the amount it has already allocated and the amount of the current-period total net reduction of other shareholders' equity. An equivalent amount of special reserve shall be allocated from the after-tax net profit in the period, plus items other than after-tax net profit in the period, that are included in the undistributed current-period earnings and the undistributed prior-period earnings. A portion of undistributed prior-period earnings shall be reclassified to special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to the net reduction of other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Earnings distribution

There is no need for the Company to distribute the earnings of 2021 and 2020 on the resolutions decided during the shareholders' meetings held on June, 24, 2022 and August, 27, 2021, respectively, because of the accumulated losses.

The contract assets mentioned above include the retention, which is 5% to 10% deducted from the bills to make sure the construction progress. For the years ended December 31, 2022 and 2021, the retrieved condition of estimated retention according to the construction contract and estimated construction progress are as follows:

<u>Estimated Retrieved Year</u>	December 31, 2022	December 31, 2021 (Restatement)
Less than one year	\$ 298,415	360,288
More than one year	<u>594,797</u>	<u>513,451</u>
	<u>\$ 893,212</u>	<u>873,739</u>

Please refer to Note 6(d) for the details on accounts receivable and allowance for impairment.

Please refer to Note 6(n) for the disclosures of the onerous contracts.

The major change in the balance of contract assets and liabilities is the difference between the time the performance obligation are satisfied and the payment from customers is received, which are measured by the changing degree of completion of construction.

(u) Employee compensation and directors' and supervisors' remuneration

In accordance with the articles of incorporation the Company should contribute no less than 5% of the profit as employee compensation and less than 3% as directors' remuneration when there is profit for the year. However, if the Company has accumulated deficits, the profit should be reserved to offset the deficit. The recipients of shares and cash may include the employees of the Company's affiliated companies who meet certain conditions.

For the years ended December 31, 2022 and 2021, the Company estimated its employee remuneration amounting to \$0, respectively, and directors' remuneration amounting to \$0, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors of each period, multiplied by the percentage of remuneration to employees, directors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2022 and 2021. Management is expecting the differences, if any, between the actual distributed amounts and estimated amounts will be treated as changes in accounting estimates and charged to profit or loss.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

There were no significant difference between employees' s compensation and remuneration of directors approved by the Board of Directors meeting and the estimated amount for the years of 2021.

(v) Non-operating income and expense

(i) Interest income

The details of interest income are as follows:

	For the Years Ended December 31	
	2021	
	2022	(Restatement)
Interest income from bank deposits	\$ 12,746	10,738
Other interest income	84	133
	\$ 12,830	10,871

(ii) Other income

The details of other income are as follows:

	For the Years Ended December 31	
	2021	
	2022	(Restatement)
Rental revenue	\$ 18,675	17,972

	<u>\$ 23,226</u>	<u>27,746</u>

(w) Financial instruments

(i) Credit risk

1) Credit risk exposure

The carrying amount of financial assets and contract assets represent the maximum amount exposed to credit risk.

2) Concentration of credit risk

Since the Group's clients are concentrated on owner that are construction industry and public-construction government, the Group have to consistently evaluate the clients' financial condition and ask them to provide guarantee or warranty if necessary. The company still evaluate the possibility of accounts receivable recovery and recognize loss allowance provision on a regular basis. The 95% and 99% of accounts receivable belonging to three clients and a client may result in a concentration of credit risk for the years ended December 31, 2022 and 2021.

3) Credit risks of receivables

For information of credit risk exposure of note and account receivables, please refer to Note 6(d).

(ii) Liquidity risk

The following table shows the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements.

	<u>Carrying amount</u>	<u>Contractual Cash Flows</u>	<u>Within 1 year</u>	<u>1-3 years</u>	<u>Over 3 years</u>
December 31, 2022					
Non-derivative financial liabilities					
Secured bank loans	\$ 1,034,613	1,049,389	844,602	204,787	-
Notes and accounts payable	2,696,546	2,696,546	2,186,734	423,538	86,274
Other payables	126,300	126,300	126,300	-	-
Lease liabilities	66,154	67,140	40,044	26,288	808
Other current liabilities - construction guarantee deposit received	158,801	158,801	86,555	41,552	30,694
Guarantee deposit received - non current	<u>1,810</u>	<u>1,810</u>	<u>-</u>	<u>1,810</u>	<u>-</u>
	<u>\$ 4,084,224</u>	<u>4,099,986</u>	<u>3,284,235</u>	<u>697,975</u>	<u>117,776</u>

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

	<u>Carrying amount</u>	<u>Contractual Cash Flows</u>	<u>Within 1 year</u>	<u>1-3 years</u>	<u>Over 3 years</u>
December 31, 2021					
Non-derivative financial liabilities					
Secured bank loans	\$ 1,237,997	1,242,163	1,242,163	-	-
Unsecured bank loans	30,000	30,033	30,033	-	-
Notes and accounts payable	2,311,677	2,311,677	1,930,628	309,175	71,874
Other payables	109,100	109,100	109,100	-	-
Lease liabilities	38,405	38,661	19,644	17,346	1,671
Other current liabilities - construction guarantee deposit received	203,389	203,389	39,789	138,646	24,954
Guarantee deposit received - non current	<u>3,571</u>	<u>3,571</u>	<u>-</u>	<u>2,350</u>	<u>1,221</u>
	<u>\$ 3,934,139</u>	<u>3,938,594</u>	<u>3,371,357</u>	<u>467,517</u>	<u>99,720</u>

The Group does not expect the cash flows included in the maturity analysis to occur significantly earlier or at significantly different amounts.

(iii) Currency risk

1) Exposure of foreign currency risk

The Group's significant exposures to foreign currency risk is as follows:

	<u>December 31, 2022</u>			<u>December 31, 2021</u>		
	<u>Foreign Currency</u>	<u>Exchange Rate</u>	<u>NTD</u>	<u>Foreign Currency</u>	<u>Exchange Rate</u>	<u>NTD</u>
<u>Financial assets</u>						
<u>Monetary items</u>						
CNY:USD	\$ 3,758	0.1435	16,564	88,447	0.1569	384,212
SGD:USD	5	1.3422	196	9	1.3529	335

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents that are denominated in foreign currency. A strengthening (weakening) of 1% of the NTD against the USD, CNY and SGD as of December 31, 2022 and 2021 would have increased (decreased) the after-tax net income for the years ended December 31, 2022 and 2021 by \$134 thousand and \$3,076 thousand, respectively. The analysis assumes that all other variables remain constant and was performed on the same basis for both periods.

As the Group deals in diverse foreign currencies, gains or losses on foreign exchange are summarized as a single amount. For the years ended December 31, 2022 and 2021, the foreign exchange gains (losses), including both realized and unrealized, amounted to \$(27,163) thousand and \$7,342 thousand, respectively.

(iv) Interest rate analysis

The interest risk exposure from financial assets and liabilities has been disclosed in the note of liquidity risk management.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

The following sensitivity analysis is based on the risk exposure to interest rates risk of non-derivate financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is based on the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increase or decreases by 0.25% when reporting to management internally, which also represent the Group management's assessment of the reasonably possible interest rate change.

If the interest rate increases/decreases by 0.25%, the Group's net income will decrease/increase by \$2,069 thousand and \$2,536 thousand for the years ended December 31, 2022 and 2021, respectively, with all other variable factors remain constant. This is mainly due to the Group's borrowing at variable rate.

(v) Other market price risk

If the equity price changes, the impact of equity price change to other comprehensive income will be as follows, assuming the analysis were based on the same basis, other variables considered in the analysis remain the same:

	For the Years Ended December 31			
	2022		2021	
	Other comprehensive income (net of tax)	Net Income	Other comprehensive income (net of tax)	Net Income (Loss)
Price of securities at the reporting date				
Increase 10%	\$ <u>138</u>	<u>157</u>	<u>138</u>	<u>819</u>
Decrease 10%	\$ <u>(138)</u>	<u>(157)</u>	<u>(138)</u>	<u>(819)</u>

(vi) Fair value of financial instruments

1) Fair value hierarchy

The fair value of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income are measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy are as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, disclosure of fair value information is not required:

	December 31, 2022				
	Book Value	Fair Value			Total
		Level 1	Level 2	Level 3

2) Valuation techniques for financial instruments measured at fair value

Financial instruments traded in active markets are based on quoted market prices. Market prices quoted from exchanges and over-the-counter are the basis of fair value of equity instruments and credit instrument traded in active markets.

Except for the financial instruments held by the Group have active market, other financial instruments' fair value are decided on the basis of general pricing model, which is analyzed by the discounted cash flows.

There have been no transfers from each level for the years ended December 31, 2022 and 2021.

(x) Financial risk management

(i) Overview

The Group have exposures to the following risks from its financial instruments:

- 1) Credit risk
- 2) Liquidity risk
- 3) Market risk

The following likewise discusses the Group's objectives, policies and processes for measuring and managing the above mentioned risks. For more disclosure about the quantitative effects of these risks exposures, please refer to the respective notes in the accompanying consolidated financial statements.

(ii) Structure of risk management

The Board of Directors has overall responsibility for the establishment and oversight of the management framework.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities.

1) Account and other receivable

The Group established a credit policy to obtain the necessary collateral to mitigate risks arising from financial loss due to default risk. The Group will transact with corporations having credit ratings equivalent to investment grade, and such ratings are provided by independent rating agencies. Where it is not possible to obtain such information, the Group will assess the ratings based on other publicly available financial information and records of transactions with its major customers. The Group continuously monitors the exposure to credit risk and counterparty credit ratings, and establish sales limits based on credit rating for each of its approved customer. The credit limits for each counterparty are approved and reviewed annually by the Risk Management Committee.

The Group did not have any collateral or other credit enhancements to avoid credit risk of financial assets.

2) Investments

The exposure to credit risk for the bank deposits, fixed income investments, and other financial instruments is measured and monitored by the Group's finance department. The Group only deals with banks, other external parties, corporate organizations, government agencies and financial institutions with good credit rating. The Group does not expect any counterparty above fails to meet its obligations hence there is no significant credit risk arising from these counterparties.

3) Guarantees

The Group's policy is to provide financial guarantees only to wholly owned subsidiaries and construction. On December 31, 2022 and 2021, no other guarantees were outstanding.

(iv) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. Eash market risk management information is as follows:

1) Interest rate risk

The Group adopts a policy of ensuring that interest rates on borrowings is on a variable-rate basis. Considering the lower market rate, the Group did not sign the any interest rate swap contract. The interest rate swap contract can be adopted to lower the risk if the interest rate is raising.

2) Other market price risk

The Group is exposed to equity price risk due to the investments in equity securities. This is a strategic investment and is not held for trading. The Group does not actively trade in these investments. The Group assigned a specific team to supervise and assess the equity price risk so as to avoid or minimize the risk from the hedging position.

(y) Capital management

The objectives of the Board's policy are to maintain an optimal capital structure to keep the investors, creditors, the market faith, and the future operation. The capital is consist of the Group's capital stock, retained earnings and net liabilities. The Board of Directors is in charge of return on capital as well as monitoring the level of common stock's dividend. The debt-to- capital ratio an the end of the reporting period as of December 31, 2022, is as follows:

	December 31, 2022	December 31, 2021
Total liabilities	\$ 4,922,472	4,266,142
Less: cash and cash equivalents	<u>(1,226,560)</u>	<u>(1,742,598)</u>
Net debt	3,695,912	2,523,544
Total equity	<u>1,362,366</u>	<u>1,981,775</u>
Adjusted capital	\$ 5,058,278	4,505,319
Debt to equity ratio	<u>73.07%</u>	<u>56.01%</u>

(7) Related-party transactions:

(a) The ultimate parent company

The Company is both the parent company the ultimate controlling party of the Group.

NEW ASIA CONSTRUCTION& DEVELOPMENT CORP. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(b) Names and relationship with related parties

The followings are entities that have had transactions with related party during the periods covered in the consolidated financial statements.

Name of Related Party	Relationship with the Group
Hefa Land Development Corporation	Associates

(c) Significant transactions with related parties

(i) Sales to related parties

The amounts of significant sales by the Group to related parties are as follows:

		For the Years Ended December 31, 2021			
		Total contract amount	Valuated amount	Current valuated amount	Income recognition int the current period
Associates	Nature Construction contract	\$ 3,317,955	3,317,955	29,925	29,925

- 1) The construction contracted by the Group to the affiliate is the contract price after the reasonable management fee and profit are added in accordance with the project budget, following the outsourcing operation regulations of the construction project of the affiliated company, and submitted to the supervisor for approval through price comparison and negotiation procedures.
- 2) For the year ended December 31, 2021, the gross profit rates of the construction contracted by the Group with the non-affiliated are about (12.69)%~ 5.96% respectively and the gross profit rates with the affiliated company are about 2.02% respectively.

(ii) Receivables from Affiliates and Contract Assets

(6) Net loss after tax: Recognized Annual Loss.

(II) Analysis of changes in operating gross profit: NTD 1,000

	Variation from the previous period	Reason for variation			
		Price difference	Cost difference	Sales mix difference	Quantity difference
Gross operating profit	(794,472)	-	-	-	-
Gross Operating Profit - sale of goods	(794,442)	-	-	-	-
Gross Operating Profit - others	(30)	-	-	-	-

Description: 1. Net Operating Profit - construction

(1) The Corporation is in the construction industry. Due to its characteristics, the difference between cost and sell price is not calculated.

III. Cash flow

(I) Cash flow analysis for the most recent 2 years

Description \ Year	2021 (Restatement)	2022	Increase (Decrease) Ratio (%)
Cash Flow Ratio (%)	(Note 1)	(Note 1)	-
Cash Flow Adequacy Ratio (%)	(Note 1)	(Note 1)	-
Cash Reinvestment Ratio (%)	(Note 1)	(Note 1)	-

Note 1: Cash flow from operating activities is below 0, thus the ratios related to cash are not analyzed.

(II) Liquidity analysis for the coming year

Unit: NTD 1,000

Initial cash balance (December 31, 2022)	Annual net cash flow from operating activities (2023)	Cash outflow for the year (2023)	Remaining/insufficient cash balance (as of December 31, 2023)	Remedial measures for cash inadequacy	
				Investment plan	Financing plan
1, 226, 560	711, 053	849, 783	1, 087, 830	0	0

IV. Major capital expenditure for the most recent year and its effect on financial position and operation of the Corporation: None.

V. Corporation reinvestment policy for the most recent fiscal year, main reasons for profits/losses generated thereby, plan for improving reinvestment profitability, and investment plans for coming year: None.

VI. Analysis and evaluation of risk factors

(I) Effect upon the Corporation's profits (losses) of interest and exchange rate fluctuations and changes in the inflation rate, and response measures to be taken in the future:

1. Interest rate: The Central Bank will follow up the decision of the US Federal Reserve to raise interest rates 4 times, with a total increase of 2.5 yards in 2022. The market capital cost has increased to a certain extent. In order to effectively manage and control the company's interest rate risk, The adjustment of spending and the control of bank borrowing have been strengthened to mitigate the impact of interest rate hikes.
2. Exchange rate: The US dollar and RMB exchange rates have fluctuated to a certain extent in recent years, in the long run, the range of change is still within control. The Corporation designated special personnel to conduct assessments from time to time, and the exchange rate has no significant impact on the Corporation.
3. Inflation: In recent years, the prices of gasoline and raw materials continued to rise. In addition to negotiating preferential prices with long-term suppliers based on market conditions and construction needs, the Corporation also actively seeks price subsidies from owners to reduce the impact of inflation on the Corporation.

(II) The Corporation's policy regarding high-risk investments, highly leveraged investments, loans to other parties, endorsements, guarantees, and derivatives transactions; the main reasons for the profits/losses generated thereby; and response measures to be taken in the future:

1. High-risk, highly-leveraged investments: None.
2. Derivatives transactions: None.
3. The Corporation's policies and procedures for handling loans to other parties, endorsements and guarantees and derivative transactions are conducted in accordance with the Corporation's "Operational Procedures for Acquisition or Disposal of Assets," "Operational Procedures for Loaning of Funds," and "Operational Procedures for Making Endorsements and Guarantees for Others."

(III) Future R&D plans and expected R&D expenditure: None.

(IV) Changes in important policies and legal environment at home and abroad, and the effect on the financial status and operation of the

Corporation, and countermeasures: None.

- (V) Effect on the Corporation's financial operations of developments in science and technology (including cyber security risks) as well as industrial change, and measures to be taken in response: None.
- (VI) Impact of changes in corporate identity on the Corporation's crisis management, and countermeasures: None.
- (VII) Expected benefits and possible risks of merger and acquisition, and countermeasures: None.
- (VIII) Expected benefits and possible risks of facilities expansion, and countermeasures: None.
- (IX) Risk from centralized purchasing or selling, and countermeasures:

Purchasing:

When purchasing the main materials for each project, the supplier's capacity and business scale must be considered to determine the number of suppliers to be subcontracted, so as to avoid the risk of supply chain failure on the part of the suppliers or termination of business for the supplier due to over dependence on particular suppliers.

Selling:

Since our main customers are government entities, the risks we faced are relatively small.

- (X) Impact and risk associated with large share transfers or changes in shareholdings of directors, supervisors, or shareholders who hold more than 10% of the Corporation's shares, and countermeasures: None.
- (XI) Impact and risk associated with changes in management rights, and countermeasures: None.
- (XII) Disclosure of issues in dispute, monetary amount of claims, filing date, parties involved, and status of any litigation or other legal proceedings within the latest fiscal year and as of the date of the annual report where the Corporation and/or any of its directors, supervisors, president, person in charge, shareholders with 10% or more share ownership, or affiliates are involved in a pending litigation, legal proceedings or administrative proceedings, or a final judgment or ruling which may have a material adverse effect on the Corporation's shareholder equity or price of securities: None.
- (XIII) Other major risks and countermeasures: None.

VII. Other important matters: None.
